Gender Stereotypes And Roles Susan A Basow Google Books:

Gender Susan A. Basow, 1992 Basow continues to present a balanced view of the literature on both men and women's gender roles with thorough attention to the empirical research. In a field that is generating research at an amazing pace, Basow provides the most comprehensive, most up to date and most research oriented book available, presenting all the current findings in psychology and sociology as well as biology, political science and anthropology. She covers both the old topics related to gender as well as new concerns in the field such as AIDS and data on changing families. *Encyclopedia of Adolescence* Roger J.R. Levesque, 2014-07-08 The *Encyclopedia of Adolescence* breaks new ground as an important central resource for the study of adolescence. Comprehensive in breadth and textbook in depth, the *Encyclopedia of Adolescence* with entries presented in easy to access A to Z format serves as a reference repository of knowledge in the field as well as a frequently updated conduit of new knowledge long before such information trickles down from research to standard textbooks. By making full use of Springer's print and online flexibility, the *Encyclopedia* is at the forefront of efforts to advance the field by pushing and creating new boundaries and areas of study that further our understanding of adolescents and their place in society. Substantively, the *Encyclopedia* draws from four major areas of research relating to adolescence. The first broad area includes research relating to Self Identity and Development in Adolescence. This area covers research relating to identity from early adolescence through emerging adulthood, basic aspects of development, e.g. biological, cognitive, social and foundational developmental theories. In addition, this area focuses on various types of identity: gender, sexual, civic, moral, political, racial, spiritual, religious and so forth. The second broad area centers on Adolescents' Social and Personal Relationships. This area of research examines the nature and influence of a variety of important relationships, including family, peer, friends, sexual and romantic, as well as significant nonparental adults. The third area examines Adolescents in Social Institutions. This area of research centers on the influence and nature of important institutions that serve as the socializing contexts for adolescents. These major institutions include schools, religious groups, justice systems, medical fields, cultural contexts, media, legal systems, economic structures and youth organizations. Adolescent Mental Health constitutes the last major area of research. This broad area of research focuses on the wide variety of human thoughts, actions and behaviors relating to mental health, from psychopathology to thriving. Major topic examples include deviance, violence, crime, pathology, DSM, normalcy, risk, victimization, disabilities, flow and positive youth development. **Families in Context** Gene H. Starbuck, Karen Saucier Lundy, 2015-11-17 The most thoroughly updated edition yet, this book offers students perspectives of changes in marriage and family over time, including the impact of the Great Recession and of new media technologies. A hallmark of *Families in Context* remains the well researched, data driven quality of the text. Beyond presenting thoroughly updated statistics and literature, each chapter examines new trends and assesses their implications for students' lives. The underlying presentation remains balanced, theoretically grounded and accessible to a wide variety of classes, allowing

students of all ages and family backgrounds to draw their own conclusions about controversial topics Features of the new edition include coverage of the Affordable Care Act new social media and families the latest trends in poverty education social mobility gender identities and healthcare updated In the News features and author created PowerPoint slides

Nardi, Derek R. Sweet, 2020-11-11 While previous work on the Star Wars universe charts the Campbellian mythic arcs political representations and fan reactions associated with the films this volume takes a transmedial approach to the material recognizing that Star Wars TV projects interact with and relate to other Star Wars texts The chapters in this volume take as a basic premise that the televisual entrants into the Star Wars transmedia storyworld are both important texts in the history of popular culture and also key to understanding

how the Star Wars franchise and thus industry wide transmedia storytelling strategies developed The book expands previous work to consider television studies and sharp cultural criticism together in an effort to bring both long running popular series long ignored texts and even toy commercials to bear on the franchise s complex history *Women's Political Visibility and Media Access* Oladokun Omojola, 2014-06-12 The constitutions of most countries frown at gender discrimination Local multinational and multilateral organizations in many developed and developing nations have instituted policies and taken actions that address cases of injustice against women But gender inequity appears to be an issue beyond what constitutional provisions and corporate strategies can address How for instance does a statutory provision guarantee the equal visibility of men and women in a news report especially in a neoliberal democracy where the general patriarchal character of the media aligns with the logic of commercialism which prioritizes profit and targets mainly those who have the means of purchase The invisibility of women in the media is a global issue and a great concern in Africa *Women s Political Visibility and Media Access The Case of Nigeria* however is about a country of over 160 million people a population roughly divided equally between male and female The book through empirical analyses and qualitative discourses agglomerates several perspectives regarding the visibility of women in the turbulent Nigerian political terrain and the response of the media in that direction in a concerted effort to resolve the burning issues of gender equality in Nigeria The book assesses the impact of aggressive tactics from women in the political arena conscious reporting of women by journalists and the increased use of ICTs by women as practical ways of bridging this wide gap *Rethinking Sex and Gender* Tina Chanter, 1997 *Opening Doors to Diversity in Leadership* Bobby Siu, 2021-02-19 Why is leadership not diverse and what can be done about it *Opening Doors to Diversity in Leadership* provides evidence and options for businesses to build a more diverse workforce leadership team and corporate culture **Generation on Hold** James E. Cote, Anton Allahaar, 1996 Traces historical constructions of adolescence and considers coming of age in the late 20th century Young adults in the modern era face a completely differently set of challenges from previous generations Tracing historical constructions of adolescence and their role in maintaining social order James E Cote and Anton L Allahaar persuasively argue that young people today constitute one of the most disadvantaged and vulnerable groups in society Today for the first time teenagers and young adults in the United states Canada Japan Scandinavia and Western Europe can expect to have a lower standard of living than their parents Youth are conditioned to stay young linger and have as a result become socially and economically marginalized Many young people amass credentials regardless of employment prospects and continue to live at home often dependent on their parents into their thirties With fewer jobs available young people are ironically targeted increasingly as consumers rather than as producers As new technologies continually reduce the work force and alter the social fabric an entire generation of young people has struggled to keep up What then does it mean to come of age in an advanced industrial or post industrial society *Speaking of Sex* Deborah L. Rhode, 1999 *Speaking of Sex* explores a topic that frequently is absent from our discussions

about sex the persistence of sex based inequality and the cultural forces that sustain it On critical issues affecting women most Americans deny either that gender inequality is a serious problem or that it is one which they have a personal or political responsibility to address In tracing this no problem problem Speaking of Sex examines the most fundamental causes of women s disadvantages and the inadequacy of current public policy to combat them Gender Stereotypes Susan A. Basow,1986 **Von Natur aus anders** Liesa Herbst,2015 Den Ausgangspunkt der vorliegenden Untersuchung bildet das überraschende Wiederaufleben biologischer Erklärungsmuster für Geschlechterunterschiede das sich sowohl in den Wissenschaften als auch in den Massenmedien beobachten lässt Im Speziellen wird der Frage nachgegangen wie in neueren Sachberichten einer relativ wenig untersuchten populären Textsorte die Geschlechterbinarität hergestellt und begründet wird Die Arbeit beschäftigt sich folglich mit einem zentralen Thema der Gender Studies der Problematik des Verhältnisses von Kultur und Natur bei der Markierung von Geschlechterdifferenzen *Handbook of Gender Research in Psychology* Joan C. Chrisler,Donald R. McCreary,2010-03-12 Donald R McCreary and Joan C Chrisler The Development of Gender Studies in Psychology Studies of sex differences are as old as the field of psychology and they have been conducted in every subfield of the discipline There are probably many reasons for the popularity of these studies but three reasons seem to be most prominent First social psychological studies of person perception show that sex is especially salient in social groups It is the first thing people notice about others and it is one of the things we remember best Fiske Haslam Stangor Lynch Duan Glass 1992 For example people may not remember who uttered a witty remark but they are likely to remember whether the quip came from a woman or a man Second many people hold firm beliefs that aspects of physiology suit men and women for particular social roles Men s greater upper body strength makes them better candidates for manual labor and their greater height gives the impression that they would make good leaders i.e people we look up to Women s reproductive capacity and the caretaking tasks e.g breastfeeding baby minding that accompany it make them seem suitable for other roles that require gentleness and nurturance Third the logic that underlies hypothesis testing in the sciences is focused on difference Researchers design their studies with the hope that they can reject the null hypothesis that experimental groups do not differ

Feminist Social Psychologies Sue Wilkinson,1996 Contributing authors utilize a wide variety of theoretical frameworks ranging from feminist empiricism through social constructionism to psychoanalysis to examine key feminist topics such as sexual violence pornography femininity and beauty emotion social class and sameness difference They also demonstrate the use of a broad range of quantitative and qualitative methods in feminist research These include questionnaires and rating scales voice relational methods discourse analysis memory work biography focus groups Q methodology and meta analysis The eclecticism of this book makes it an ideal teaching text for undergraduate and postgraduate courses on social psychology psychology of women feminist psychology gender issues critical psychology and research methods
