Sheet Music Gershwin George Porgy And Bess:

The Sheet Music of George Gershwin Thomas Inglis, Janice Grower, 2007 **Blackness in Opera** Naomi Andre, Karen M. Bryan, Eric Saylor, 2012-03-01

Blackness in Opera critically examines the intersections of race and music in the multifaceted genre of opera. A diverse cross section of scholars places well known operas Porgy and Bess Aida Treemonisha alongside lesser known works such as Frederick Delius's Koanga William Grant Still's Blue Steel and Clarence Cameron White's Ouanga to reveal a new historical context for reimagining race and blackness in opera. The volume brings a wide ranging theoretically informed interdisciplinary approach to questions about how blackness has been represented in these operas issues surrounding characterization of blacks interpretation of racialized roles by blacks and whites controversies over race in the theatre and the use of blackface and extensions of blackness along the spectrum from grand opera to musical theatre and film. In addition to essays by scholars the book also features reflections by renowned American tenor George Shirley. Contributors are Naomi Andre Melinda Boyd Gwynne Kuhner Brown Karen M Bryan Melissa J de Graaf Christopher R Gauthier Jennifer McFarlane Harris Gayle Murchison Guthrie P Ramsey Jr Eric Saylor Sarah Schmalenberger Ann Sears George Shirley and Jonathan O Wipplinger.

Arias, Ensembles, & Choruses John Yaffé, David Daniels, 2011-11-17

Conductors John Yaff and David Daniels have created a one stop sourcebook for orchestras opera companies conductors and librarians who research and or prepare programs of vocal excerpts such as solos ensembles and choruses for concert performance. In this book readers will find detailed information on a vast repertoire of vocal pieces commonly extracted from operas operettas musicals and oratorios more than 1 750 excerpts from 450 parent works. Modeled on Daniels Orchestral Music Arias Ensembles Choruses includes basic historical details about each parent work as well as extract titles subtitles voice types keys durations locations in the original work with page numbers in both full scores and piano vocal scores and exact instrumentation. It also lists the publishers that make available the orchestral materials for just the excerpt being programmed independent of the full parent work. Until now conductors and orchestra librarians commonly had to first leaf through full scores searching for one elusive three minute aria after another only to then consult multiple publishers catalogues to compile crucial information on all the excerpts proposed for a concert or recording. This book constitutes a single source for finding that information. In many cases the individual entries include valuable insider information on common performance practice including start and stop points transpositions and conventional cuts. Searching for repertoire is made easy with the detailed title index and appendixes devoted to ensemble excerpts all categorized by personnel e.g. duets trios quartets quintets sextets choruses and language Czech English French German Italian Latin Russian. This book is the ideal tool for the working conductor and orchestral librarian as well as music program directors at colleges and conservatories opera companies and symphony orchestras. As of October 2015 a new printing of this book has occurred to correct errors in the index. A PDF version of the new index is available to previous purchasers of the volume.
