

Questions for development studies

Defines the concept development and show its various dimensions.

Answer

Todaro and Smith define development as the “process of improving the quality of all human lives”. They refer to three important aspects of development.

- i. Raising peoples living standards – their income and consumption levels of food, mechanical services education etc, through relevant economic growth
- ii. Creating conditions conducive to the growth of peoples, self – esteem through the establishment by social and economic systems and institutions their promote human dignity and respect;
- iii. Increasing peoples freedom by enlarging the range of their of choice variable as by increasing varieties of consumer goods and services.

Discuss the main contribution of modernization theory to development to development thinking and practice

Answer

Modernization theory has profound effects on development thinking and practice, among these the following:

- i. It focuses alternation on the role of values and attitudes in development and response to source change.
- ii. It advocates for democratization of societies based on political participation
- iii. Highlights the problems faced by third world countries and proceeds to offer solutions

Development Studies Question Papers

**Niess, Margaret, Driskell,
Shannon, Hollebrands, Karen**

Development Studies Question Papers:

Development, Education and Learning in Sri Lanka Angela W. Little, 2024-06-13 Sri Lanka's early achievements in education and literacy became well known among the international development community in the middle of the last century and were often used to benchmark progress elsewhere. *Development Education and Learning in Sri Lanka* presents an illuminating narrative of changing education fortunes and inequalities based on half a century of research. This research journey was undertaken in collaboration with Sri Lankan researchers island wide in myriad communities, schools, classrooms and education offices through conversations with countless parents, teachers, students, community members, trade union officers, politicians and members of local, national and international development agencies as well as through extensive documentary analysis. The book delineates the distinctive and changing features of the Sri Lankan education system through comparisons with systems elsewhere through an understanding of national political, economic and social conditions, crises and upheavals through changes in education policy and through shifting patterns of opportunity among diverse social groups. These analyses are framed by themes in the international development discourse ranging from modernisation to basic needs to globalisation and sustainable development, some of which themes have been influenced by the Sri Lankan story. The book's overriding messages are the need to understand education and development in a country's own terms and to place learning at the heart of education policy, situating it within broader conceptions of the purpose, values and means of development.

Praise for *Development Education and Learning in Sri Lanka* Through rigorous and comprehensive research and a blend of local and global perspectives, this book offers invaluable insights for academics and policymakers alike. Tara de Mel, Director, Bandaranaike Academy for Leadership and Public Policy and former Secretary, Sri Lanka Ministry of Education. Reflecting on a career-long engagement with education and development, Angela Little brilliantly co-locates the personal, political and the theoretical. A privilege to read. Simon McGrath, University of Glasgow. This passionate engagement with education reform and development offers very instructive lessons for academics and policymakers in Sri Lanka and beyond. Siri T. Hettige, University of Colombo. Fifty years of personal experience in Sri Lanka from many vantage points. A focus on education and society rather than education alone. And a concern to understand rather than prescribe. This book has no competitors. Mick Moore, Institute of Development Studies, Sussex.

[Educart CBSE Social Science Sample Question Papers For Class 10 \(For March 2020 Exam\)](#) Education Experts, 2019-11-20. NEW VERSION Available now based on the 20th September 2019 CBSE Sample Paper. IIFT The book also contains a General Awareness Question Bank containing 100 MCQ s involving current issues similar to the ones asked in the actual exam

African Land Questions, Agrarian Transitions and the State Sam Moyo,2008 This empirically grounded study provides a critical reflection on the land question in Africa research on which tends to be tangential conceptually loose and generally inadequate It argues that the most pressing research concern must be to understand the precise nature of the African land question its land reforms and their effects on development To unravel the roots of land conflicts in Africa requires thorough understanding of the complex social and political contradictions which have ensued from colonial and post colonial land policies as well as from Africa s development and capital accumulation trajectories especially with regard to the land rights of the continent s poor The study thus questions the capacity of emerging neo liberal economic and political regimes in Africa to deliver land reforms which address growing inequality and poverty It equally questions the understanding of the nature of popular demands for land reforms by African states and their ability to address these demands under the current global political and economic structures dictated by neo liberalism and its narrow regime of ownership The study invites scholars and policy makers to creatively draw on the specific historical trajectories and contemporary expression of the land and agrarian questions in Africa to enrich both theory and practice on land in Africa

The World Bank Research Program, 2005-2007 ,2008 This pocket sized reference on key environmental data for over 200 countries includes key indicators on agriculture forestry biodiversity energy emission and pollution and water and sanitation The volume helps establish a sound base of information to help set priorities and measure progress toward environmental sustainability goals
