The complexity of these topics has fascinated researchers from various backgrounds including psychologists, cognitive or learning scientists, mathematicians and mathematics educators. Among those researchers, two scholars with a similar background, Alan Schoenfeld in the United States and Gnter T rner in Germany, are internationally recognized for their contributions to these topics. To celebrate their 65th birthdays in 2012, this book brought together many scholars to reflect on how their own work has built upon and continued Alan and Gnter's work in mathematics education. Contemporary Critical Discourse Studies Christopher Hart, Piotr Cap, 2014-11-07 CDS is a multifarious field constantly developing different methodological frameworks for analysing dynamically evolving aspects of language in a broad range of socio-political and institutional contexts. This volume is a cutting edge interdisciplinary account of these theoretical and empirical developments. It presents an up to date survey of Critical Discourse Studies (CDS) covering both the theoretical landscape and the analytical territories that it extends over. It is intended for critical scholars and students who wish to keep abreast of the current state of the art. The book is divided into two parts. In the first part, the chapters are organised around different methodological perspectives for CDS: history, cognition, multimodality and corpora, among others. In the second part, the chapters are organised around particular discourse types and topics investigated in CDS, both traditionally (e.g. issues of racism and gender inequality) and only more recently (e.g. issues of health, public policy and the environment). This is altogether an essential new reference work for all CDS practitioners.

UN Intervention Practices in Iraq Kerstin

Eppert,2019-01-17 This book analyzes UN intervention discourses and practices in Iraq and develops a deconstructive approach to international interventions Hitherto most analyses of the conflict in Iraq in 2003 have established the UN s role as path dependent on the foreign policy of the US and the UK and largely portrayed it as a mediator and fervent opponent of international intervention Analyzing the UN Security Council and the later UN Assistance Mission for Iraq UNAMI from 2000 to 2010 this book undoes this path dependency and puts the UN s relationship with Iraq center stage It develops a deconstructive critical approach that identifies subject construction and reflexivity as central processes of intervention practices and concludes that non intervention is deeply connected to the stabilization of political identities and representations Using extensive primary data the book contributes a new perspective on international interventions This book will be of much interest to students of peace and conflict studies intervention and statebuilding Middle Eastern studies and International Relations Complicity in Discourse and Practice Jef Verschueren,2021-07-19 It is commonplace to say that we are living in troubled times Liberal democracy is in crisis Academic freedom is seriously constrained The media offers less insight and analysis than could be expected given the proliferation of communication tools Based on decades of research into the social and ideological functioning of discourse and with a focus on politics universities and the media Jef Verschueren offers an analysis of current practices asks whether we are all complicit and makes suggestions for what we can do Central to this book is the notion of derailed reflexivity referring to the observation that politics institutions and news reporting tend to be excessively aimed at public opinion impression management and clicks to the detriment of policies addressing social justice issues high quality service and media content Highlighting that education is the cornerstone for democratic choices and ensures that we can critically assess media content this book shows that shared responsibility can be a source of hope and that everyone has the power to intervene Complicity in Discourse and Practice is a call to action for readers and a plea for actively minding the ecology of the public sphere
