**Mensaje del Sr. Koichiro Matsuura,
Director General de la UNESCO,
con motivo del
Día Mundial del Medio Ambiente 2009**

5 de junio de 2009

Me complace sobremanera unir mi voz a la de la UNESCO en apoyo del Día Mundial del Medio Ambiente 2009. Este día especial fue instituido por la Asamblea General de las Naciones Unidas en 1972, con el fin de suscitar la conciencia y la acción mundial en pro del medio ambiente. El tema de este año es "Tu planeta te necesita – Unidos contra el cambio climático". Permitánnme explicarles el significado que este mensaje encierra para la UNESCO y lo que estamos haciendo para promoverlo.

La primera obligación ineludible consiste en reconocer que el cambio climático repercutirá en los sistemas de apoyo que sustentan la vida en la Tierra y de los cuales depende el bienestar de todos nosotros. Por lo tanto, debemos responder a este llamamiento que hace el planeta para que se inviertan las insostenibles tendencias actuales de consumo y producción que son las causas del cambio climático.

En segundo lugar, debemos actuar de consuno; sin la participación de todos los países no podremos lograr resultados justos y equitativos. El intercambio de información y de experiencias adquiridas, así como la formación de alianzas dinámicas entre los diversos protagonistas sociales, son factores esenciales para definir y promover métodos eficaces de responder a este desafío. El lema "Unidos contra el cambio climático" nos recuerda la dimensión ética del asunto. En respuesta a un problema que afecta al mundo entero, debemos encontrar soluciones equitativas e integradoras. La respuesta que demos al cambio climático no debe colocar en una situación aún más desventajosa a los miembros más pobres de nuestra sociedad y debería siempre priorizar la preservación de modos de vida sostenibles. En resumen: deberíamos abordarlo en el contexto más amplio del logro del desarrollo sostenible para todos.

El lema "Unidos contra el cambio climático" pone también de relieve en qué medida es necesario que los organismos, fondos y programas del sistema de las Naciones Unidas colaboren para hacer frente a esta amenaza. En el sistema de las Naciones Unidas, la UNESCO y la Organización Meteorológica Mundial recibieron el encargo de coordinar las labores transversales en materia de ciencia, evaluación, seguimiento y alerta temprana para responder al cambio climático. En fechas recientes, la UNESCO y el Programa de las Naciones Unidas para el Medio Ambiente firmaron un memorando de entendimiento que prevé la vinculación de esta base de conocimientos científicos con la función de promoción y asesoramiento sobre políticas que desempeña el PNUD. Estos son
