The truth about great storytelling is hidden in plain view for anyone to see but nearly every expert ignores the most basic story construct. In Your Storytelling Potential, writers who seek to tell great stories will find a complete understanding of the identifiable traits great novels and screenplays namely movies have that distinguish them from the other 99.99% of books and screenplays written every year. How to use two stories within a screenplay and novel which exponentially increases the chances of those stories gaining buzz and attention. A proper understanding of the critical and essential role of subplots to create genuine character depth and relationships. How to properly integrate a theme for stories to convey deep relevant and amazing ideas. An outline for utilizing an A/B parallel story structure and the simple story timeline to build multi-dimensional stories with the required converging events of the A/B story relationship. How the premise of every great story is created by the convergence of the A/B storylines and how this key information can unlock your storytelling potential.

Terrifying Texts Cynthia J. Miller, A. Bowdoin Van Riper, 2018-09-14 From Faust 1926 to The Babadook 2014 books have been featured in horror films as warnings, gateways, prisons and manifestations of the monstrous. Ancient grimoires such as the Necronomicon serve as timeless vessels of knowledge beyond human comprehension while runes, summoning diaries and spell books offer their readers access to the powers of the supernatural but at what cost? This collection of new essays examines nearly a century of genre horror in which on-screen texts drive and shape their narratives, sometimes unnoticed. The contributors explore American films like The Evil Dead 1981, The Prophecy 1995 and It Follows 2014 as well as such international films as Eric Valette's Malefique 2002, Paco Cabeza's The Appeared 2007 and Lucio Fulci's The Beyond 1981.
