Research Libraries,1979 Stamps, Nationalism and Political Transition Stanley D Brunn,2022-08-08 This book explores how states in political transition use stamps to promote a new visual nationalism

Stamps as products of the state and provide small pieces of information about a state's heritage, culture, economies and place in the world. These depictions change over time reflecting political and cultural changes and developments. The volume explores the transition times in more than a dozen countries from Africa, Latin America, Asia and Europe. Specifically addressed are the stamp topics, issues and themes in the years before and after such major changes occurred, for example from a European colony to political independence or from a dictatorship to democracy. The authors compare the personalities, histories and cultural representations before the transition period and how the state used the after event to define or redefine its place on the world political map. The final three chapters consider international themes on many stamp issues: one being stamps with Disney cartoon characters, another on themeless Forever stamps and the third on states celebrating women and their accomplishments. This volume has wide interdisciplinary relevance and should prove of particular interest to those studying geopolitics, political transition, visual nationalism, soft power and visual representations of decolonializing.

**Funk & Wagnalls Guide to the World of Stamp Collecting** Viola Ilma, 1978. Discusses the history of stamps, describes the collections of several prominent people and provides information and advice on beginning and maintaining a collection.

The Madman's Guide to Stamp Collecting Robert Irwin, 2025-04-10. A fascinating one-of-a-kind journey through the world of stamps and collecting by maverick historian and writer Robert Irwin. Why do we collect? Is it to rescue objects from oblivion? Is it a kind of desire or even a kind of madness? In this mosaic of fiction, philosophy, sociology, biography and autobiography, virtuoso thinker Robert Irwin takes us on a wayward journey through the art of collecting and his own intellectual passions. Drawing on the works of writers including Susan Sontag, Walter Benjamin, Iris Murdoch and Georges Perec, as well as a host of lesser-known geniuses, flâneurs, obsessives and eccentrics, Irwin explores everything from mysticism to nostalgia, classical antiquity to surrealism, dreams to death. We join Thomas De Quincey on a night mail coach encounter, the man who set out to acquire every stamp ever issued and enter the badlands of fakes and forgeries, all in the company of a uniquely brilliant mind. This is a book of wonders, of labyrinthine digressions, good humour and a delight in small things. It is a meditation on the stuff of life. **Literatur-nachrichten**, 1958.
