the EU and its member states By using Spain and Italy as case studies the author theorizes that the EU given its inability to adopt and implement a common policy to effectively manage migratory flows on its Southern border uses a deterrence strategy based on minimum common denominators Climate Change in the Middle East and North Africa William R. Thompson, Leila Zakhirova, 2021-07-04 Environmental factors in the Middle East and North Africa MENA have played a crucial role in the historical and social development of the region The book delves into a broad set of historical literature from the past 15 000 years that neglected to consider environmental factors to their full effect Beyond the broad historic analysis the chapters derive conclusions for today's debate on whether climate change leads to more social conflict and violence Introducing a theoretical framework focused on adaptive cycling this book probes and refines the role of climate in ancient and modern political economic systems in the MENA region It also underscores just how bad the 21st century environment may become thanks to global warming While the MENA region may not survive the latest onslaught of deteriorating climate there is also some interest in how a region that once led the world in introducing all sorts of innovations thousands of years ago has evolved into a contemporary setting characterized by traditional conservatism poverty and incessant strife Emphasizing regional dynamics the book's central question deals with the role of climate change in the rise and decline of the MENA region The book will be a key resource to students and readers interested in global warming including academics and policymakers *Migration und Integration - wissenschaftliche Perspektiven aus Österreich* Jennifer Carvill Schellenbacher, Julia Dahlvik, Heinz Faßmann, Christoph Reinprecht, 2018-04-16 Als klassisch interdisziplinäres Thema wird Migration und Integration in den unterschiedlichsten wissenschaftlichen Fächern erforscht Das Jahrbuch für Migrations und Integrationsforschung fördert den interdisziplinären Austausch und publiziert und dokumentiert regelmäßig Forschungsfragen und Ergebnisse der österreichischen Migrations und Integrationsforschung Die Beiträge im vierten Jahrbuch behandeln Themen wie Asyl Familie und Sprache Integration und Identität sowie Gesundheit in einer migrationsgeprägten Gesellschaft Raum gegeben wird dabei neueren theoretischen und methodologischen Ansätzen und der Frage wie sich die Forschungserkenntnisse in die Praxis einbringen lassen As a classically interdisciplinary topic migration and integration is investigated in a range of disciplines The Yearbook of Migration and Integration Research aims to encourage interdisciplinary exchange by regularly publishing and documenting the main questions and results of Austrian migration and integration research The entries in this fourth volume address a broad range of topics from asylum and legal issues education and discrimination as well as the various forms migration might take and the impact of migration on society In doing so new theoretical and methodological approaches are described and the question of how research results can be integrated into practice is discussed *Raptor Migration in Israel and the Middle East* Guy M. A Global Middle East Liat Kozma, Cyrus Schayegh, Avner Wishnitzer, 2014-12-03 The start of the twentieth century ushered in a period of unprecedented change in the Middle East These transformations brought about by the emergence of the modern state system and an increasing interaction with a more globalized economy irrevocably altered the political and social structures of the Middle East even as the region itself left its mark on the processes of globalization themselves As a result of these changes there was an intensification in the movement of people commodities and ideas across the globe commercial activity urban space intellectual life leisure culture immigration patterns and education nothing was left untouched It shows how even as the Middle East was responding to increased economic interactions with the rest of the world by restructuring not only local economies but also cultural political and social institutions the region's engagement with these trends altered the nature of globalization itself This period has been seen as one in which the modern state system and its oftentimes artificial boundaries emerged in the Middle East But this book highlights how despite this it was also one of tremendous interconnection Approaching the first period of modern globalization by investigating the movement of people objects and ideas into around and out of the Middle East the authors demonstrate how the Middle East in this period was not simply subject or reactive to the West but rather an active participant in the transnational flows that transformed both the region and the world A Global Middle East offers an examination of a variety of intellectual and more material exchanges such as nascent feminist movements and Islamist ideologies as well as the movement of sex workers across the Mediterranean and Jewish migration into Palestine A Global Middle East emphasises this by examining the multi directional nature of movement across borders as well as this movement's intensity volume and speed By focusing on the theme of mobility as the defining feature of modern globalization in the Middle East it provides an essential examination of the formative years of the region
