Buller,2012-12-06 The first North Sea Oil and Gas Reservoirs Conference was held in Trondheim in 1985 as part of the Norwegian Institute of Technology s 75th anniversary celebrations

Favourable reactions from the delegates prompted the Committee to re run the event some three and a half years later and it is now intended that the Conference be held on a regular basis as long as there is a demand for this type of gathering. The objectives of the 1989 Conference which were broadly similar to those of the previous one were a to bring together those engaged in various geoscientific and reservoir engineering aspects of North Sea Oil and gas reservoirs in one forum b to demonstrate wherever possible the interdependence of the various disciplines and specializations c to promote innovative synergistic approaches to research and development programmes aimed at North Sea conditions and d to reflect current trends in the reservoir sciences. Naturally there was no place for specialist parallel sessions in a Conference aimed at encouraging interdisciplinary integration and awareness.
