Assessing English for Professional Purposes Ute Knoch, Susy Macqueen, 2019-09-10 WINNER OF ILTA SAGE Best Book Award 2020. Assessing English for Professional Purposes provides a state-of-the-art account of the various kinds of language assessments used to determine people's abilities to function linguistically in the workplace. At a time when professional expertise is increasingly mobile and diverse, with highly trained professionals migrating across national boundaries to apply their skills in English-speaking settings, this book offers a renewed agenda for inquiry into language assessments for professional purposes (LAPP). Many of these experts work in high-risk environments where communication breakdowns can have serious consequences. This risk has been identified by governments and professional bodies who implement language tests for gate-keeping purposes. Through a sociological lens of risk and responsibility, this book provides a detailed overview of both foundational and recent literature in the field, offers conceptual tools for specific purpose assessment, including a socially oriented theory of construct development, theory and practice in key areas such as needs analysis, test development, validation, and policy. It significantly broadens the scope of the assessment of English for professional purposes to include a range of assessment practices for both professionals and laypeople in professional settings. Assessing English for Professional Purposes is key reading for researchers, graduate students, and practitioners working in the area of English for Specific Purposes assessment. **English for Academic Purposes** Douglas E. Bell, 2024-09-10. This book provides readers with a critical and comprehensive overview of EAP's birth, its historical development, and its ongoing trajectory, incorporating along the way the views of individuals who have played key roles in the field. It examines a wide range of crucial topics in EAP, including pedagogy, materials, and assessment, and the role of EAP and those who teach it within the academy. The book concludes with a glimpse into the future as the author discusses the strengths, weaknesses, and opportunities currently facing EAP, and also evaluates some of the threats posed by issues such as privatisation and generative AI.
