Modern Political Science Robert Adcock, Mark Bevir, Shannon C. Stimson, 2009-01-10 Since emerging in the late nineteenth century political science has undergone a radical shift from constructing grand narratives of national political development to producing empirical studies of individual political phenomena What caused this change Modern Political Science the first authoritative history of Anglophone political science argues that the field's transformation shouldn't be mistaken for a case of simple progress and increasing scientific precision On the contrary the book shows that political science is deeply historically contingent driven both by its own inherited ideas and by the wider history in which it has developed Focusing on the United States and the United Kingdom and the exchanges between them Modern Political Science contains contributions from leading political scientists political theorists and intellectual historians from both sides of the Atlantic Together they provide a compelling account of the development of political science its relation to other disciplines the problems it currently faces and possible solutions to these problems Building on a growing interest in the history of political science Modern Political Science is necessary reading for anyone who wants to understand how political science got to be what it is today or what it might look like tomorrow **Eric**

Voegelin and the Foundations of Modern Political Science Barry Cooper, Eric Voegelin, 1999 Annotation This important new work is a major analysis of the foundation of Eric Voegelin's political science Barry Cooper maintains that the writings Voegelin undertook in the 1940s provide the groundwork for the brilliant book that is one of his best known *The New Science of Politics* At the time of that book's publication however few were aware of the enormous knowledge and accomplished scholarship that lay behind its illuminating although sometimes baffling formulations By focusing on several of the key chapters in Voegelin's eight volume *History of Political Ideas* especially the studies of Bodin Vico and Schelling Cooper shows how those studies provide the basis for Voegelin's thought Investigating Voegelin's study of Oriental influences on Western political ideas especially Mongol constitutional law and his study of Toynbee Cooper seeks to demonstrate the vast range of materials Voegelin used Cooper contends that as with other great thinkers political crisis specifically the world war of 1939-1945 stimulated Voegelin's intellectual and spiritual achievement He provides an analysis of Voegelin's immediate concern with the course of World War II his ability to understand those dramatic events in a large context and his ability to provide an insightful account of the causes the significance and the consequences of the spiritual and political disorder that was evident all around him In *Eric Voegelin and the Foundations of Modern Political Science* Cooper makes the connection between Voegelin's political writings of the 1940s and the meditative interpretations that began to appear with the publication of *Anamnesis* and with the later volumes of *Order and History* much more intelligible than does any existing discussion of

The Truth about Leo Strauss Catherine H. Zuckert, Michael P. Zuckert, 2008-04-15 Is Leo Strauss truly an intellectual forebear of neoconservatism and a powerful force in shaping Bush administration foreign policy The Truth about Leo Strauss puts this question to rest revealing for the first time how the popular media came to perpetuate such an oversimplified view of such a complex and wide ranging philosopher More important it corrects our perception of Strauss providing the best general introduction available to the political thought of this misunderstood figure Catherine and Michael Zuckert both former students of Strauss guide readers here to a nuanced understanding of how Strauss's political thought fits into his broader philosophy Challenging the ideas that Strauss was an inflexible conservative who followed in the footsteps of Nietzsche Heidegger and Carl Schmitt the Zuckerts contend that Strauss's signature idea was the need for a return to the ancients This idea they show stemmed from Strauss's belief that modern thought with its relativism and nihilism undermines healthy politics and even the possibility of real philosophy Identifying this view as one of Strauss's three core propositions America is modern modernity is bad and America is good they conclude that Strauss was a sober defender of liberal democracy aware of both its strengths and its weaknesses The Zuckerts finish appropriately by examining the varied work of Strauss's numerous students and followers revealing the origins rooted in the tensions within his own thought of their split into opposing camps Balanced and accessible The Truth about Leo Strauss is a must read for anyone who wants to more fully comprehend this enigmatic philosopher and his much disputed legacy

Politik als Prozeß der Gemeinschaftsbildung Carl J. Friedrich, 2013-03-14 Vielleicht sollte ich mich f r die

Verwegenheit dieses Buches entschuldigen Aber es erscheint mir als eine sehr vordringliche Aufgabe die politische Erfahrung in ihrer Gesamtheit zu überblicken und zusammenzufassen um zu sehen ob sich aus ihr nicht eine Reihe allgemeiner Folgerungen darbieten ergeben wie eine politische Ordnung beschaffen sein muß Und trotz der Gewagtheit eines solchen Unternehmens meine ich daß es in Angriff genommen werden sollte von jemandem der sein Leben mit dem Studium dieser Erfahrungen verbracht hat nicht nur in der Theorie sondern auch in der Praxis nicht nur in einem Land sondern in mehreren und nicht nur in pragmatischer sondern auch in philosophischer Sicht Die Unterlagen für eine solche Untersuchung vermehren sich sehr schnell Bemerkungen um den Aufbau und Umbau politischer Ordnungen gibt es in der ganzen Welt und die Unzufriedenheit mit den erzielten Ergebnissen ist sehr weit verbreitet Natürlich möchte ich gleich hier betonen daß dieses Werk weder der erste noch der letzte Versuch ist die gesamte Erfahrung des Menschen im politischen Bereich zu verarbeiten Von der Politik des Aristoteles bis zu Arbeiten der Zeitgenossen haben die Fragen um die es hier geht die besten Denker beschäftigt Und das ist verständlich genug denn das Schicksal der Menschheit hängt letztlich davon ab ob es gelingt die menschlichen Beziehungen in einen Kosmos weltweiter Gemeinschaft einzuordnen
