Profit Split Method Overview And Practical Issues:

The Future of the Profit Split Method Gabriella Cappelleri, Robert Danon, Vikram Chand, 2020-11-23 The Future of the Profit Split Method Edited by Robert Danon Guglielmo Maisto Vikram Chand uncertainties and outcomes potentially not aligned with the arm's length standard possible role of assessments made by the European Commission on State aid nexus with the work done by the EU Joint Transfer Pricing Forum impact of profit split on indirect taxes VAT customs tax excise tax and application to digital business models and in general to the digitalized economy Moreover relevant experience of applying this method in France Germany Italy Spain Switzerland the United Kingdom and the United States is provided A concluding chapter also deals with selected industry experiences Due to a high level of uncertainty in alignment with international guidance in the application of the PSM and to the underdeveloped nature of current literature on the subject there is a need for this book because both tax administrations and taxpayers going forward will apply the PSM extensively The book is highly relevant for policymakers tax administrations practitioners and academics engaged in the areas of international taxation transfer pricing and tax policy

Guide to International Transfer Pricing Dr A. Michael Heimert, T.J. Michaelson, 2018-10-26 The pricing of goods services intangible property and financial instruments within a multi divisional organization particularly in regard to cross border transactions has emerged as one of the most contentious areas of international tax law This is due in no small measure to the rise of transfer pricing regulations as governments seek to stem the flow of their tax revenue from their jurisdictions This thoroughly practical work provides guidance on an array of critical transfer pricing issues The guide's relevance is further enhanced by the inclusion of country chapters covering domestic transfer pricing issues in a variety of key national jurisdictions

The Taxation of Global Trading of Financial Instruments OECD, 1998-03-09 This publication thoroughly reviews the factual background to global trading analyses the challenges posed to traditional taxation methods and discusses a range of policy options to tackle the problems

Transfer Pricing and Intangibles Michael Lang, Alfred Storck, Raffaele Petruzzi, Robert Risse, 2019-04-11 Transfer pricing treatment of intangibles Issues und

developments In recent decades intangibles have become one of the most relevant success factors for Multinational Enterprises MNEs Along with the increasing importance of intangibles for economies their tax treatment has also been under scrutiny which includes inter alia respective transfer pricing issues MNEs are seeking for the best ways to optimize their business arrangements with the related intangibles while at the same time getting the most tax efficient treatment On the other hand tax authorities have become increasingly concerned with the ease that intangibles can be used in aggressive planning These concerns have been noticed and addressed by the Organization for Economic Cooperation and Development which presented its main findings with respect to transfer pricing aspects of intangibles in Action 8 of the BEPS Project in 2015 and in the 2017 OECD Transfer Pricing Guidelines This book is based on the outcomes of the presentations and discussions held during the WU Transfer Pricing Symposium Transfer Pricing and Intangibles Current Developments Relevant Issues and Possible Solutions that took place in October 2018 at the WU Vienna University of Economics and Business The publication discusses the most important issues and recent developments related to transfer pricing treatment of intangibles Starting with the definition of intangibles it further deals with topics such as appropriate attribution of intangible related profits structuring of intangibles in MNEs and proper valuation of intangibles The authors apart from providing a theoretical background to the discussed issues also present case studies that show how certain issues can be approached in practice Every chapter ends with a summary of the discussions held during the panels of the Transfer Pricing Symposium in which representatives of tax administrations multinationals and tax advisories presented their opinions on the issues at stake

The Allocation of Multinational Business Income: Reassessing the Formulary Apportionment Option Richard Krever, 2020-02-20 The Allocation of Multinational Business Income Reassessing the Formulary Apportionment Option Edited by Richard Krever application of formulary apportionment in specific sectors such as digital enterprises and the banking industry the political economy of establishing and maintaining a successful formulary apportionment regime formulary apportionment proposals for Europe the role of traditional tax criteria such as economic efficiency fairness ease of administration and robustness to avoidance and incentive compatibility determining which parts of a multinational group are included in a formulary apportionment unit and whether innovative profit split methodologies such as those developed by China are shifting traditional arm's length methods to a quasi formulary apportionment system Providing a comprehensive understanding of all aspects of the formulary apportionment option this state of the art summary of history current practice proposals and prospects in the ongoing debate over arm's length versus formulary apportionment methodologies will be welcomed by practitioners policy makers and academics concerned with international taxation all of whom will gain an understanding of the case put forward by proponents for adoption of formulary apportionment in Europe and globally and the counter arguments they face Readers will acquire a better understanding of the implications of formulary apportionment and its central role in the current debate about the future of international taxation rules providing

sic all the intellectual ammunition needed to carefully re examine one of the ideas traditionally considered as apocryphal by the OECD and to a significant portion of the tax professional community readers of this book will come away not only with a renewed understanding of the multiple facets of formulary apportionment but also of some of the fundamental pressure points in the international tax system Accordingly it is a welcome and timely addition to the literature Dr Stjepan Gad o Assistant Professor at University of Rijeka Faculty of Law British Tax Review 2021 Issue 2 p243 246 **Code of Federal Regulations** ,1996 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries **The Code of Federal Regulations of the United States of America** ,1996 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government *Critical Concerns in Transfer Pricing and Practice* Wagdy M. Abdallah,2004-07-30 For multinational corporations MNCs there is arguably no more important operational function that affects all areas of manufacturing marketing management and finance as international transfer pricing the practicing of supplying products or services across borders from one part of the organization to another Its complexity is compounded by the impact of e commerce speeding the flow of goods and services intangible assets such as intellectual property whose value is difficult to quantify and the activities of policymakers around the world to update their tax laws and regulations in efforts to close loopholes that have historically encouraged tax avoidance In *Critical Concerns in Transfer Pricing Policy and Practice* Wagdy Abdallah provides an in depth overview of these recent trends and developments and considers their implications for the management of MNCs In particular he discusses methods for pricing transferred goods and services in the e commerce era and analyzes the most recent regulation reforms in such countries as Germany Mexico Japan Canada the United Kingdom the United States and the Netherlands Anticipating increased scrutiny of MNC transfer pricing practices from governments and other external stakeholders Abdallah outlines a set of practical recommendations for creating a successful transfer pricing system that maximizes value for the company while remaining sensitive to local policies in all of the countries in which it operates **Taxing the Digital Economy** Craig Elliffe,2021-05-13 Highly digitalised businesses threaten the viability of the international corporate tax system Can a new system overcome these challenges **Transfer Pricing Developments Around the World 2017** Michael Lang,Alfred Storck,Raffaele Petruzzi,2016-04-24 Derived from the renowned multi volume International Encyclopaedia of Laws this book describes the social security regime in Slovenia It conveys a clear working knowledge of the legal mechanics affecting health care employment injuries and occupational diseases incapacity to work pensions survivors benefits unemployment benefits and services and family benefits The analysis covers the field of application conditions for entitlement calculation of benefits financing the institutional framework and relevant law enforcement and controls Allowances for retirees employees public sector workers the self employed and the handicapped are all clearly explained along with full details of claims adjudication procedures and appeals Succinct yet

eminently practical the book will be a valuable resource for lawyers handling social security matters in Slovenia It will be of practical utility to those both in public service and private practice called on to develop and to apply social security law and policy and of special interest as a contribution to the comparative study of social security systems

Attribution of Profits to Permanent Establishments Michael Lang, Raffaele Petruzzi, Alfred Storck, 2020-04-08 Attribution of Profits to Permanent Establishments Issues and Developments The profit attribution to permanent establishments is one of the most controversial topics in international tax law In recent years it was subject to various changes based on the introduction of the Authorized OECD Approach in 2008 and 2010 the outcomes of Final Report on OECD BEPS Action 7 and the Final Report on Additional Guidance on the Attribution of Profits to a Permanent Establishment under BEPS Action 7 from 2018 with the previous Discussion Drafts This publication discusses the most important issues and recent developments related to the attribution of profits to permanent establishments Starting with an in depth analysis on the commonalities and differences between the profit attribution provisions in modern double tax treaties ie Art 7 AOA vs Art 9 OECD UN Models it further deals with topics such as profit attribution to PEs and PE exemptions Art 5 para 4 profit attribution to agency PEs Art 5 para 5 and 6 and profit attribution to a significant economic presence and to market states This book is based on the outcomes of the presentations and discussions held during the WU Transfer Pricing Symposium that took place in October 2019 at the WU Vienna University of Economics and Business The authors apart from providing a theoretical background to the discussed issues also present case studies that show how certain issues can be approached in practice Every chapter ends with a summary of the opinions on the issues at stake of representatives of tax administrations multinationals and tax advisories which completes this essential practical guideline

Limiting Base Erosion Erik Pinetz, Erich Schaffer, 2017-08-30 Limiting base erosion from different viewpoints Hybrid mismatch arrangements CFC rules transfer pricing rules Limiting Base Erosion the general topic for the master theses of the part time LL M program 2015 2017 has been one of the most controversial topics in international tax law ever since the initiation of the OECD BEPS Project in 2013 Even though the final reports of the 15 BEPS Actions were released by the OECD in as early as October 2015 the question how to effectively target base erosion practices still has not lost any of its topicality Following the efforts of the OECD in developing a new international tax environment the focus of attention has now partly shifted to the OECD Member countries that have to properly implement the OECD recommendations in their domestic laws as well as in their tax treaty practice In this respect a comprehensive analysis in the literature of all the issues related to base erosion proves to be of the utmost importance in order to provide practical guidance to the Member countries during that the process of implementation This book deals especially with four key areas of interest Limiting base erosion by neutralizing the effects of hybrid mismatch arrangements Limiting base erosion by strengthening CFC rules Measures against base erosion via interest deductions and other financial payments Limiting base erosion by improving transfer pricing rules On that basis 27 concrete topics were chosen in order to address the four key areas of

interest from different viewpoints Base erosion and the challenges they present read more in Limiting Base Erosion

Valuation of Intangible Assets in Global Operations Farok J. Contractor, 2001-03-30 The valuation of intangible assets has become a central issue in the practice of management When companies undertake alliances or licensing agreements effect mergers sell or purchase brands or evaluate R D projects a key issue is how each party puts a financial value on the intangible contribution Valuations also have a tax implication particularly in transnational operations The contributors including academics from five nations and expert practitioners from leading accounting and consulting companies cover intellectual property strategy of global firms valuation of human capital and valuation techniques for the transfer or sale of brands licenses and other intangible assets In addition the contributors address the special needs of the software and pharmaceutical sectors in separate chapters This book includes tools metrics and models that are of interest to academics as well as global executives Recommended for valuation experts scholars international tax specialists executives especially those involved in alliance negotiations brand equity mergers and acquisitions divestitures and intellectual property management and officials in such supranational institutions as the EU OECD UNCTAD WTO IMF and World Bank

Internal Revenue Bulletin United States. Internal Revenue Service, 2003 **The Transfer Pricing of Intangibles** Michelle Markham, 2005-01-01 Transactions involving intellectual property play an increasingly significant role in economic activity at every level from global to local with particular challenges for taxation and revenue authorities Moreover the manifold complexities associated with identifying valuing and transferring intangibles make this an issue requiring a creative review of existing transfer pricing methodologies and techniques In this ground breaking new study Michelle Markham offers an in depth examination of attitudes at the forefront of this rapidly evolving area of taxation law focusing her work on a comparative analysis of the US OECD and Australian perspectives on the transfer pricing of intangible assets The Transfer Pricing of Intangibles not only highlights the current problems encountered in inter affiliate transactions of intangible property but also attempts to offer a variety of solutions to these problems Among the issues explored are the following how the tax treatment of intangible in the context of transfer pricing has become a major international tax concern definitional issues which are vital to an understanding of transfer pricing application of the arm s length principle to intangible asset transactions determination of legal and economic ownership of group intangible assets intangible asset valuation and transfer transfer pricing methodologies global formulary apportionment transfer pricing documentation requirements penalties for non compliance resolution of transfer pricing disputes and advance pricing agreements Revenue authorities multinational enterprise executives and tax practitioners around the world will greatly appreciate the recommendations and solutions proposed in this knowledgeable and thoughtful book Its acute sense of the opportunities and pitfalls of an ever more complex area of economic activity place it in a category of its own of inestimable benefit to interested parties

Special Features of the UN Model Convention Anna Binder, Viktoria Wöhrer, 2019-10-01 Detailed research on the UN

Model Convention's unique features The UN Model Convention has a significant influence on international tax treaty practice and is especially used by emerging and developing countries as a starting point for treaty negotiations Driven by the aim to achieve consistency in the international tax treaty practice the structure and content is to a large extent similar in the UN Model and the OECD Model However whereas the OECD has historically focused its efforts on issues mainly relevant for developed countries the UN Tax Committee has continuously attempted to specifically take into account tax treaty policies for developing countries when drafting and amending the UN Model Convention Compared to the OECD Model Convention the UN Model Convention aims at giving more weight to the source principle Popular examples are the PE definition in the UN Model which provides for a lower threshold than Article 5 of the OECD Model or Article 12A on Fees for Technical Services which has been introduced with the latest amendment of the UN Model Convention 2017 and allows for a withholding tax to be levied on payments to non residents when the payer of the fee is a resident of that contracting State irrespective of where the services are provided Interestingly in the discussions of the tax challenges arising from the digitalization of the economy the OECD and the G20 are also exploring options to allocate more taxing rights to the jurisdiction of the customer and or user i e the market jurisdictions As this has traditionally been the focus of the UN Model Convention its unique features and developing countries practices could be taken into account when exploring new nexus rules that are not constrained by the physical presence requirement This book contains the master's theses of the full time LL M program 2018 2019 for which Special Features of the UN Model Convention has been chosen as the general topic With this book the authors and editors do not aim at discussing each article of the UN Model Convention but rather focus on the unique features of the UN Model Convention which are explored in detail This is supplemented with an evaluation of the function and relevance of the UN Tax Committee in the international tax policy discussion and with an analysis of the influences of the OECD's BEPS project on the UN Model the OECD's BEPS project on the UN Model
