Project Management Theory and Practice, Third Edition Gary L. Richardson, Brad M. Jackson, 2018-07-27 Project Management Theory and Practice Third Edition gives students a broad and real flavor of project management Bringing project management to life it avoids being too sterilely academic and too narrowly focused on a particular industry view It takes a model based approach towards project management commonly used in all industries The textbook aligns with the latest version of the Project Management Institute's Project Management Body of Knowledge PMBOK Guide which is considered to be the de facto standard for project management However it avoids that standard's verbiage and presents students with readable and understandable explanations Core chapters align with the Project Management Institute's model as well as explain how this model fits real world projects The textbook can be used as companion to the standard technical model and help those studying for various project management certifications The textbook takes an in depth look at the following areas important to the standard model Work Breakdown Structures WBS Earned Value Management EVM Enterprise project management Portfolio management PPM Professional responsibility and

ethics Agile life cycle The text begins with a background section Chapters 1 9 containing material outside of the standard model structure but necessary to prepare students for the 10 standard model knowledge areas covered in the chapters that follow The text is rounded out by eight concluding chapters that explain advanced planning approaches models and projects external environments Recognizing that project management is an evolving field the textbook includes section written by industry experts who share their insight and expertise on cutting edge topics It prepares students for upcoming trends and changes in project management while providing an overview of the project management environment today In addition to guiding students through current models and standards Project Management Theory and Practice Third Edition prepares students for the future by stimulating their thinking beyond the accepted pragmatic view

Understanding Project Management, Third Edition Dave C. Barrett, 2024-11-26 Understanding Project Management Third Edition presents a practical real world guide for aspiring and practicing project managers The text follows an ongoing case study from inception to completion The case guides students through the key aspects of a project including its scope quality schedule and budget while also exploring the less tangible challenges that can often either derail a project or lead to its success This well updated new edition features expanded content on agile project management with a new scrum case study exploration of hybrid project management techniques and new content on the history of project management working with remote and international project teams and Earned Value Management Understanding Project Management clearly presents key waterfall agile and hybrid project management concepts with examples to enhance learning This practical guide is an invaluable resource for project management courses at colleges and universities in the US and Canada

Proceedings of the International Conference on Business and Management Dynamics 2016: Sustainable economies in the information economy Joy E. Akahome, Michael Twum-Darko, Cyril Ogbokor, Nyaniso Mfusi Zonke, T. Sethibe, R. Steyn, Esme Mohammed, Renier Steyn, L.B. Nguenang, Mamorena Lucia Matsoso, Henry N. Ozuru, Julius Akaba, Patient Rambe, Edem Korku Agbobli, Henri-Vincent Ndjave-Ndjoy, Regis Muchemwa, Andre de la Harpe, Konosoang Mpiti, Ayodeji Afolayan, 2016-12-31 Cape Town South Africa 7 Sept 2016 8 Sept 2016 Theme Sustainable economies in the information economy Purpose To share the quality academic papers presented at the International Conference on Business and Management Dynamics ICBMD held from 7 to 8 September 2016 at African Pride Crystal Hotel and Spa in Cape Town As grey literature the proceedings are the contributions made by researchers at the conference and are considered the written record of the work that was presented to fellow conference delegates Methodology The methodology used varies from researcher to researcher but are suitable for the studies conducted Thus on the one hand studies that were subjective in nature used the interpretive paradigm where the qualitative approach adopted made use of the interview method to collect data On the other hand studies that were objectively inclined adopted the positivist philosophy and used survey questionnaires to collect data However there were some academic papers which used mixed methodology because of the nature of the study Whatever

methodology used adhered to the ethos of the philosophies underpinning the methodology Contribution made to scholarship The articles come from individual researchers and each article in the proceedings is unique Mostly there is no general argument leading from one contribution to the next However it is interesting to note that in the area of economic performance it was evident that real exchange rate and net foreign direct investment contribute more towards innovations in economic growth With regard to human capital development papers presented evidence that there exists a definite need to explore the phenomenon of personal branding as limited scientific academic research has been done within the field of personal branding or on elements of the topic Thus the outcome argues that personal branding has an influence on leadership style which in turn impacts on organisational performance and related hygiene factors Furthermore it was demonstrated that current methods or strategies for enforcing institutionalisation of knowledge sharing within an organisation have not been successful and as such new strategies are needed to reinforce efforts to nurture and invigorate the institutionalisation of knowledge sharing within an organisation With regard to technology and big data impact on organisational performance it was evident that system performance memory consumption and CPU utilisation can be used as criteria to compare and evaluate big data technologies to improve organisational performance Most of the articles contribution reemphasised technology education and training as a means of digitising business and improving effectiveness Target audience The target readership is academic researchers and business leaders who require access to the latest developments in the fields of economics information management business education development studies social sciences and technology It is also for policymakers and other stakeholders who need a better understanding of the impact of new developments on existing policies and regulations for their review or amendment
