Resistances to Fearlessness R. Michael Fisher, B. Maria Kumar, 2021-05-10 The current dominating worldview and its paradigms of operations are unhealthy and unsustainable Ecological economic political and psychological health are at stake As experts in a philosophy of fearism they apply a critical perspective on the dominant Fear Paradigm as root cause of the global crises in the 21st century They offer a worldview shift via the Fearlessness Paradigm This is a second major book on this topic of which the first was Fisher s *The World s Fearlessness Teachings* 2010 This follow up book is deep punchy and provocative It points to the failure of the world to understand the spirit of fearlessness that has existed from the beginning of Life some four billion years ago The authors from diverse backgrounds point to the resistances that work against the recognition and development of the natural gift of fearlessness and the design of a Fearlessness Paradigm both which can counter the abuses of the Fear Paradigm With extensive research and philosophical thought the authors dialogue in a fresh imaginative way to help readers and leaders in all walks of life to better understand what resistances they may have to escaping from what Fisher calls the Fear Matrix

Accessible Tourism Dimitrios Buhalis, Simon Darcy, 2011 Inclusion disability an ageing population and tourism are increasingly important areas of study due to their implications for both tourism demand and supply This book therefore sets out to explore and document the current theoretical approaches foundations and issues in the study of accessible tourism In drawing together the contributions to this volume the editors have applied broader social constructionist approaches to understanding the accessible tourism phenomena Accessible tourism as with any area of academic study is an evolving field of academic research and industry practice As with other areas of tourism the field is multidisciplinary and is influenced by various disciplines including geography disability studies economics public policy psychology and marketing As one would expect from two scholars at the height of their academic abilities Dimitrios Buhalis and Simon Darcy have delivered a timely and much needed contribution to the under served area of accessible tourism Harnessing the best conceptual developments on the topic *Accessible Tourism* is a scholarly yet hugely readable collection and readily communicates the various contributors passion for and command of their subject This collection is a must have text for anyone engaged in the theory practice and policy of accessible tourism and will be essential reading on undergraduate and postgraduate courses across a range of disciplines and fields I cannot speak highly enough of

this endeavour and I m sure it will take accessible tourism and universal design debates into the mainstream of academic enquiry and industry practice Professor Nigel Morgan The Welsh Centre for Tourism Research University of Wales Institute Cardiff Wales

Environmental Crises in Central Asia Eric Freedman,Mark Neuzil,2015-10-23 Environmental conditions do not exist in a vacuum They are influenced by science politics history public policy culture economics public attitudes and competing priorities as well as past human decisions In the case of Central Asia such Soviet era decisions include irrigation systems and physical infrastructure that are now crumbling mine tailings that leach pollutants into soil and groundwater and abandoned factories that are physically decrepit and contaminated with toxic chemicals *Environmental Crises in Central Asia* highlights major environmental challenges confronting the region s former Soviet republics Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan They

include threats to the Caspian and Aral seas the impact of climate change on glaciers desertification deforestation destruction of habitat and biodiversity radioactive and hazardous wastes water quality and supply energy exploration and development pesticides and food security and environmental health The ramifications of these challenges cross national borders and may affect economic political and cultural relationships on a vast geographic scale At the same time the region's five governments have demonstrated little resolve to address these complex challenges This book is a valuable multi disciplinary resource for academics scholars and policymakers in environmental sciences geography political science natural resources mass communications public health and economics

Human Security and Human Rights under International Law Dorothy Estrada-Tanck, 2016-12-01 Human security provides one of the most important protections a person centred axis of freedom from fear from want and to live with dignity It is surprising given its centrality to the human experience that its connection with human rights has not yet been explored in a truly systematic way This important new book addresses that gap in the literature by analysing whether human security might provide the tools for an expansive and integrated interpretation of international human rights The examination takes a two part approach Firstly it evaluates convergences between human security and all human rights civil political economic social and cultural and constructs an investigative framework focused on the human security human rights synergy It then goes on to explore its practical application in the thematic cores of violence against women and undocumented migrants in the law and case law of UN European Inter American and African human rights bodies It takes both a legal and interdisciplinary approach recognising that human security and its relationship with human rights cuts across disciplinary boundaries Innovative and rigorous this is an important contribution to human rights scholarship

Mystic Apprentice Volume 6: Mystic Skills LPE Ken Ludden, 2012-02-15 This final edition of the Mystic Apprentice textbook series is very unlike the other books in the series Instead of being a presentation of information the apprentice must learn as are the other five volumes this instead is a guide to meditation Read one phrase one word one sentence and then sit with it Take two years to work through the book the first time For the learning at the Mystic level is within one's self and cannot be found outside This journey within follows the same 22 spiritual tenets that are at the base of all of Anka Muehlebach's teaching practice and ministry What is in this book does not guide your meditation session but rather the session is the only logical outcome of exposing one's conscious mind to these koans This is a contemplative provocation designed to awaken deep inner truth which is the Mystic journey within

The Shield and the Cloak Gary Hart, 2006-02-16 Gary Hart has long been one of the nation's foremost experts on national security combining a deep knowledge of national security policy with first hand experience of the political realities that influence how America safeguards itself and its interests In his new book Hart outlines the fundamental changes with which America must grapple when confronting the current terrorist threat a threat with no state and no geographic home base and thus no real target for the world's largest and most sophisticated military force Hart argues for a security of the commons

emphasizing that the new security will require a shield for the homeland as well as a cloak of non military security including security of income community environment and energy
