Research Methodology V. V. Khanzode, 2004 **Textbook of Forest Science** Asim Kumar Mandal, Abel

Nicodemus, 2025-02-14 This textbook presents the latest knowledge on various disciplines of forestry science presented in 39 chapters. Each chapter presents a reappraisal of theory and practice applications and future scope of subject area. It is a single point reference for updated information on both traditional and contemporary areas of forestry. Some of the disciplines covered in the book are biotechnology, remote sensing, forest certification, forest management, forest hydrology, climate change, plantation and urban forestry, biodiversity and genetic resources conservation, wildfire science, seed science and quality seed production and ecosystem services. The book primarily serves as an advanced textbook of forest science for students of forestry at all levels. The science of forestry is receiving much more attention of the researchers, policy makers and public than ever before because of growing awareness of vital importance of forests in amelioration of world environment. This book is a comprehensive collection of existing and new methods including outcome and future possibilities of forest science. This book benefits undergraduate and postgraduate students, professional researchers, teachers, practicing foresters and policy planners. The book also encourages the public to understand the relevance of forest science to overcome the contemporary economic and environmental challenges.

Research Methodology and Quantitative Techniques K.A. Varghese, B.R. Ranwah, Nisha Varghese, Nikhil Varghese, 2025-02-26 Research Methodology and Quantitative Techniques is a guide tailored for students and research scholars navigating the intricate landscape of research degrees across various disciplines. From clearing coursework to formulating research synopses, selecting methodologies, conducting analysis and penning impactful theses, this book is a roadmap for every stage of the research journey. It empowers scholars to undertake original quality research that not only fulfills academic requirements but also contributes to the burgeoning pool of knowledge in diverse fields. Uniquely structured to address the specific needs of researchers, this guide goes beyond traditional boundaries, delving into areas like IPRs and research ethics often overlooked in discipline-oriented texts. By offering comprehensive support from topic selection to publication, it aims to be the go-to resource for researchers seeking a seamless path from inception to dissemination. This book, Research Methodology and Quantitative Techniques, addresses every facet of research with clarity and insight and serves as both a companion and a vital tool for scholars poised to make a meaningful research impact in their fields.
