Four Arguments For The Elimination Of Television:

Four Arguments for the Elimination of Television Jerry Mander, 2013-08-13 Persuasive interesting and unusual Kirkus Reviews A total departure from previous writing about television this book is the first ever to advocate that the medium is not reformable Its problems are inherent in the technology itself and are so dangerous to personal health and sanity to the environment and to democratic processes that TV ought to be eliminated forever Weaving personal experiences with meticulous research the author ranges widely over aspects of television that have rarely been examined and never before joined together allowing an entirely new frightening image to emerge The idea that all technologies are neutral benign instruments that can be used well or badly is thrown open to profound doubt Speaking of TV reform is in the words of the author as absurd as speaking of the reform of a technology such as guns Praise for the work of Jerry Mander Lively provocative Publishers Weekly A skilled writer Kirkus Reviews starred review Schafft das Fernsehen ab! Beautiful TV Greg M. Smith, 2009-03-06 During its five year run from 1997 to 2002 the popular TV show *Ally McBeal* engaged viewers in debates over what it means to be a woman or a man in the modern workplace how romance factors into the therapeutic understanding of relationships what value eccentricity has and how much oddity society should tolerate and what utility fantasy has in the pragmatic world In addition to these social concerns however *Ally McBeal* stood out for being well constructed narratively complex and stylistically rich in short beautiful TV Starting from the premise that much of television today is drop dead gorgeous and that TV should be studied for its formal qualities as well as its social impact Greg M Smith analyzes *Ally McBeal* in terms of its aesthetic principles and narrative construction He explores how *Ally*'s innovative use of music special effects fantasy sequences voiceovers and flashbacks structures a distinctive fictional universe while it also opens up new possibilities for televisual expression Smith also discusses the complex narrative strategies that *Ally*'s creator David E Kelley used to develop a long running storyline and shows how these serial narrative practices can help us understand a wide range of prime time TV serials By taking seriously the art and argument of *Ally McBeal* *Beautiful TV* conclusively demonstrates that aesthetic and narrative analysis is an indispensable key for unlocking the richness of contemporary television

Connecting Social Problems and Popular Culture Karen Sternheimer, 2013-02-19 Is violence on the streets caused by violence in video games Does cyber bullying lead to an increase in suicide rates Are teens promiscuous because of *Teen Mom* As Karen Sternheimer clearly demonstrates popular culture is an easy scapegoat for many of society's problems but it is almost always the wrong answer Now in its second edition *Connecting Social Problems and Popular Culture* goes beyond the news grabbing headlines claiming that popular culture is public enemy number one to consider what really causes the social problems we are most concerned about The sobering fact is that a media made them do it explanation fails to illuminate the roots of social problems like poverty violence and environmental degradation Sternheimer's analysis deftly illustrates how welfare reform a two tiered health care system and other difficult systemic issues have far more to do with our contemporary social problems than *Grand Theft Auto* or Facebook The fully revised new edition features recent moral panics think sexting and cyberbullying and an entirely new chapter exploring social media Expanded discussion of how we understand society's problems as social constructions without disregarding empirical evidence as well as the cultural and structural issues underlying those ills allows students to stretch their sociological imaginations

Rock Likewise DVDs and DVRs web video HDTV and mobile devices have shifted the longstanding conception of television as a household appliance toward a new understanding of TV as a sophisticated high tech gadget Newman and Levine argue that television's growing prestige emerges alongside the convergence of media at technological industrial and experiential levels Television is permitted to rise in respectability once it is connected to more highly valued media and audiences Legitimation works by denigrating ordinary television associated with the past distancing the television of the present from the feminized and mass audiences assumed to be inherent to the old TV It is no coincidence that the most validated programming and technologies of the convergence era are associated with a more privileged viewership The legitimation of television articulates the medium with the masculine over the feminine the elite over the mass reinforcing cultural hierarchies that have long perpetuated inequalities of gender and class Legitimizing Television urges readers to move beyond the question of taste whether TV is good or bad and to focus instead on the cultural political and economic issues at stake in television's transformation in the digital age *Children and Television* Norma Pecora, John P.
