Fra Angelico Dissemblance And Figuration:

Fra Angelico Georges Didi-Huberman, Angelico (fra), 1995-10-15 A Florentine painter who took Dominican vows Fra Angelico 1400 1455 approached his work as a largely theological project For him the problems of representing the unrepresentable of portraying the divine and the spiritual mitigated the more secular breakthroughs in imitative technique Didi Huberman explores Fra Angelico s solutions to these problems his use of color to signal approaching visibility of marble to recall Christ s tomb of paint drippings to simulate or stimulate holy anointing He shows how the painter employed emptiness visual transformation and displacement to give form to the mystery of faith In the work of Fra Angelico an alternate strain of Renaissance painting emerges to challenge rather than reinforce verisimilitude Didi Huberman traces this disruptive impulse through theological writings and iconographic evidence and identifies a widespread tradition in Renaissance art that ranges from Giotto s break with Byzantine image making well into the sixteenth century He reveals how the techniques that served this ultimately religious impulse may have anticipated the more abstract characteristics of modern art such as color fields paint splatterings and the absence of color Part of Didi Huberman s large scale rethinking of art theory and history and the first of his books to appear in English translation Fra Angelico is a fitting introduction to one of the most original and celebrated writers in the world of art history and criticism **Fra Angelico** Georges Didi-Huberman, Fra
