The Friction of the Frame Simone Heller-Andrist, 2012-03-07 In her study Simone Heller-Andrist applies the Kantian and Derridean parergon to English literature The parergon is a specific type of frame that interacts with the work it surrounds in a fashion likely to influence or even manipulate our reading of the work On the basis of this interaction Derrida's parergon becomes a valid methodological tool that allows a close analysis of the mechanisms involved in the reading process The manipulative force of a textual construct is apparent through the occurrence of friction namely incongruities or gaps we notice during the reading process Friction is thus on the one hand the main indicator of parergonality and on the other the prime signal for a potential conditioning of the reader As readers we not only have to analyze the interaction between work and parergon but must also constantly reflect upon our own position with regard to the text that we read By means of the concept of the parergon we can approach not only paratextual narrative or discursive frames but also intertextual relationships Since the application of the concept is based on a basic textual constellation and an internal mechanism its range is wide and transcends or complements previously established textual categories

The Modern Myths Philip Ball, 2021-05-01 With *The Modern Myths* brilliant science communicator Philip Ball spins a new yarn From novels and comic books to B movies it is an epic exploration of literature new media and technology the nature of storytelling and the making and meaning of our most important tales Myths are usually seen as stories from the depths of time fun and fantastical but no longer believed by anyone Yet as Philip Ball shows we are still writing them and still living them today From Robinson Crusoe and Frankenstein to Batman many stories written in the past few centuries are commonly perhaps glibly called modern myths But Ball argues that we should take that idea seriously Our stories of Dracula Dr Jekyll and Mr Hyde and Sherlock Holmes are doing the kind of cultural work that the ancient myths once did Through the medium of narratives that all of us know in their basic outline and which have no clear

moral or resolution these modern myths explore some of our deepest fears dreams and anxieties We keep returning to these tales reinventing them endlessly for new uses But what are they really about and why do we need them What myths are still taking shape today And what makes a story become a modern myth In *The Modern Myths Ball* takes us on a wide ranging tour of our collective imagination asking what some of its most popular stories reveal about the nature of being human in the modern age

Magic Words, Magic Worlds Matthew Oliver, 2022-06-24 While all fiction uses words to construct models of the world for readers nowhere is this more obvious than in fantasy fiction Epic fantasy novels create elaborate secondary worlds entirely out of language yet the writing style used to construct those worlds has rarely been studied in depth This book builds the foundations for a study of style in epic fantasy Close readings of selected novels by such writers as Steven Erikson Ursula Le Guin N K Jemisin and Brandon Sanderson offer insights into the significant implications of fantasy's use of syntax perspective paratexts frame narratives and more Re-examining critical assumptions about the reading experience of epic fantasy this work explores the genre's reputation for flowery archaic language and its ability to create a sense of wonder Ultimately it argues that epic fantasy shapes the way people think examining how literary representation and style influence perception

Nach der Einführung enthält der erste Abschnitt des Buches Kapitel von internationalen Wissenschaftlern über die Anerkennung und Diversifizierung von Englischvarianten in heutigen Sprach- und Übersetzungsklassen. Insbesondere konzentrieren sich die Kapitel auf Themen wie die kulturelle Hegemonie eines monolithischen Englisch, Englisch und Universitätsdidaktik Englisch als Torwächter und die Rolle einer neu konzipierten Englischbildung bei der Förderung des interkulturellen Verständnisses. Der zweite Abschnitt konzentriert sich auf die Interaktion von Literatur und Kultur mit spezifischen Kapiteln zur Dekolonisierung des traditionellen literarischen Kanons, zur Definition eines Globaltexts, zur Darstellung kultureller Interaktionen in literarischen Texten und zu neuen Genres in der zeitgenössischen englischen Literatur. Beide Abschnitte des Buches hinterfragen die bestehenden Grenzen in einer Welt nach 2020, insbesondere in einer nicht westlichen Welt. Sex, Lies, and Autobiography James L. O'Rourke, 2006. In *Sex, Lies, and Autobiography* James O'Rourke explores the relationships between literary form and ethics, revealing how autobiographical texts are able to confront readers with the moral complexities of everyday life. Tracing the ethical legacy of Jean-Jacques Rousseau's *Confessions* in a series of English language texts, the author shows how Rousseau's doubts about the possibility of ethical behavior in everyday life shadows the first person narratives of five canonical works: William Wordsworth's *Prelude*, Charlotte Brontë's *Jane Eyre* and *Villette*, Mary Shelley's *Frankenstein*, and Vladimir Nabokov's *Lolita*. Offering a fascinating new way of thinking about ethics through literature, *Sex, Lies, and Autobiography* challenges the most fundamental principles of the philosophical study of ethics, revealing the innate difference between morality in life and morality in literature. O'Rourke begins with Rousseau's inability to reconcile his intuitive belief that he is a good person with the effects that his actions have on others, and he goes on to show how this same ethical impasse recurs in the five aforementioned texts. The ethical crises these texts describe, such as when *Jane Eyre*'s happiness can be purchased only at the cost of Bertha Mason's suicide or when Humbert Humbert's artistry demands the sacrifice of Dolores Haze, are not instances of authorial ethical blindness, O'Rourke says, but rather are ethical challenges that force us as readers to consider our own lives. In each of these works, a narrator attempts to justify his or her behavior and fails; in each case, the rigorous narrative of self-examination demands a similar effort from the reader, whose own sense of moral rectitude is put into question. Confronting the long-held philosophical construction that links ethical principles and life choices, thereby reassuring us of the ethical coherence of everyday life, the narrators of these literary autobiographies come to a very different conclusion: by looking back on their lives, they cannot understand how their most benevolent desires led to such damaging life stories. By leaving meaning implicit, O'Rourke argues, these texts are able to recover traumatic material that is ordinarily repressed and then bring that repressed

knowledge to bear on self justifying narratives For readers interested in autobiographical studies ethical criticism and trauma and literary studies Sex Lies and Autobiography provides a groundbreaking analysis of the role of ethics in literature

The Literature of Waste S. Morrison, 2015-06-03 Tracing material and metaphoric waste through the Western canon ranging from Beowulf to Samuel Beckett Susan Signe Morrison disrupts traditional perceptions of waste to better understand how we theorize manage and are implicated in what is discarded and seen as garbage Engaging a wide range of disciplines Morrison addresses how the materiality of waste has been sedimented into a variety of toxic metaphors If scholars can read waste as possessing dynamic agency how might that change the ethics of refuse ing and ostracizing wasted humans A major contribution to the growing field of Waste Studies this comparative and theoretically innovative book confronts the reader with the ethical urgency present in waste literature itself

Embodied Difference Jamie A. Thomas, Christina Jackson, 2019-02-20 Focusing on the body as a visual and discursive platform across public space we study marginalization as a sociocultural practice and hegemonic schema Whereas mass incarceration and law enforcement readily feature in discussions of institutionalized racism we differently highlight understudied sites of normalization and exclusion Our combined effort centers upon physical contexts skeletons pageant stages gentrifying neighborhoods discursive spaces medical textbooks legal battles dance pedagogy vampire narratives and philosophical arenas morality genocide physician assisted suicide cryonic preservation transfeminism to deconstruct seemingly intrinsic connections between body and behavior Whiteness and normativity

Fracture Feminism David Sigler, 2021-08-01 Feminist writers in British Romanticism often developed alternatives to linear time Viewing time as a

system of social control writers like Mary Wollstonecraft Anna Barbauld and Mary Shelley wrote about current events as if they possessed knowledge from the future Fracture Feminism explores this tradition with a perspective informed by Lacanian psychoanalysis and Derridean deconstruction showing how time can be imagined to contain a hidden fracture and how that fracture when claimed as a point of view could be the basis for an emancipatory politics Arguing that the period s most radical experiments in undoing time stemmed from the era s discourses of gender and women s rights Fracture Feminism asks to what extent could women belong to their historical moment given their political and social marginalization How would voices from the future interrupt the ordinary procedures of political debate What if utopia were understood as a time rather than a place and its time were already inside the present
