Fresh Fruit, Broken Bodies Seth M. Holmes, Jorge Ramirez-Lopez, 2023-11-28 *Fresh Fruit Broken Bodies* provides an intimate examination of the everyday lives suffering and resistance of Mexican migrants in our contemporary food system Seth Holmes an anthropologist and MD in the mold of Paul Farmer and Didier Fassin shows how market forces anti immigrant sentiment and racism undermine health and health care Holmes was invited to trek with his companions clandestinely through the desert into Arizona and was jailed with them before they were deported He lived with Indigenous families in the mountains of Oaxaca and in farm labor camps in the United States planted and harvested corn picked strawberries and accompanied sick workers to clinics and hospitals This embodied anthropology deepens our theoretical understanding of the ways in which social inequities come to be perceived as normal and natural in society and in health care In a substantive new epilogue Holmes and Indigenous Oaxacan scholar Jorge Ramirez Lopez provide a current examination of the challenges facing farmworkers and the lives and resistance of the protagonists featured in the book *Fresh Fruit, Broken Bodies* Seth M. Holmes, 2013-06-19 An intimate examination of the everyday lives and suffering of Mexican migrants and indigenous people in our contemporary food system An anthropologist and MD in the mold of Paul Farmer and Didier Fassin Seth Holmes shows how market forces anti immigrant sentiment and racism undermine health and healthcare Holmes's material is visceral and powerful He trekked with his companions illegally through the desert into Arizona and was jailed with them before they were deported He lived with indigenous families in the mountains of Oaxaca and in farm labor camps in the U S planted and harvested corn picked strawberries and accompanied sick workers to clinics and hospitals This embodied anthropology deepens our theoretical understanding of how health equity is undermined by a normalization of migrant suffering the natural endpoint of systemic dehumanization exploitation and oppression that clouds any sense of empathy for invisible workers *Fresh Fruit Broken Bodies* is far more than an ethnography or supplementary labor studies text Holmes tells the stories of food production workers from as close to the ground as possible revealing often theoretically discussed social inequalities as irreparable bodily damage done This book substantiates the suffering of those facing the danger of crossing the border threatened with deportation or otherwise caught up in the structural violence of a system promising work but endangering or ignoring the human rights and health of its workers All of the book award money and royalties from the sales of this book have been donated to farm worker unions farm worker organizations and farm worker projects in consultation with farm workers who appear in the book *Experiential and Performative Anthropology in the Classroom* Pamela R. Frese, Susan Brownell, 2020-07-08 The contributors gathered here revitalize ethnographic performance the performed recreation of ethnographic subject matter pioneered by Victor and Edith Turner and Richard Schechner as a progressive pedagogy for the 21st century They draw on their experiences in utilizing performances in a classroom setting to facilitate learning about the diversity of culture and ways of being in the world The editors themselves both students of

Turner at the University of Virginia and Richard Schechner share recollections of the Turners vision and set forth a humanistic pedagogical agenda for the future A detailed appendix provides an implementation plan for ethnographic performances in the classroom

**Sociopolitics of Migrant Death and Repatriation** Krista E. Latham, Alyson J. O'Daniel, 2017-10-03 As scholars have by now long contended global neoliberalism and the violence associated with state restructuring provide key frameworks for understanding flows of people across national boundaries and eventually into the treacherous terrains of the United States borderlands The proposed volume builds on this tradition of situating migration and migrant death within broad systems level frameworks of analysis but contends that there is another perhaps somewhat less tidy but no less important sociopolitical story to be told here Through examination of how forensic scientists define, navigate and enact their work at the frontiers of US policy and economics this book joins a robust body of literature dedicated to bridging social theory with bioarchaeological applications to modern day problems This volume is based on deeply and critically reflective analyses submitted by individual scholars wherein they navigate and position themselves as social actors embedded within and perhaps partially constituted by relations of power, cultural ideologies and the social structures characterizing this moment in history Each contribution addresses a different variation on themes of power, relations, production of knowledge and reflexivity in practice In sum however the chapters of this book trace relationships between institutions, entities and individuals comprising the landscapes of migrant death and repatriation and considers their articulation with sociopolitical dynamics of the neoliberal state

*Displacement, Belonging, and Migrant Agency in the Face of Power* Tamar Mayer, Trinh Tran, 2022-06-29 This book centres the voices and agency of migrants by refocusing attention on the diversity and complexity of human mobility when seen from the perspective of people on the move. In doing so the volume disrupts the binary logics of migrant/refugee push/pull and places of origin/destination that have informed the bulk of migration research. Drawn from a range of disciplines and methodologies this anthology links disparate theories/approaches and geographical foci to better understand the spectrum of the migratory experience from the viewpoint of migrants themselves. The book explores the causes and consequences of human displacement at different scales both individual and community level and across different time points from antiquity to the present and geographies not just the Global North but also the Global South. Transnational scholars across a range of knowledge cultures advance a broader global discourse on mobility and migration that centres on the direct experiences and narratives of migrants themselves. Both interdisciplinary and accessible this book will be useful for scholars and students in Migration Studies, Global Studies, Sociology, Geography and Anthropology.

**The Oxford Handbook of Job Quality** Chris Warhurst, Chris Mathieu, Rachel E. Dwyer, 2022-06-20 The aim of this Handbook is to produce an interdisciplinary and international benchmark text for anyone wanting to understand job quality. Job quality matters and has long and continually done so even if the terminology used to describe it has and continues to vary. Debate about the future of work and job quality in the twenty-first century centres on the impact of the new digital technologies of the putative fourth industrial revolution. This debate compounds existing concerns about the restructuring of employment and importantly a worrying proliferation of poor quality jobs often within the context of neo-liberal political/economic hegemony since the early 1980s or the economic crisis that followed the Global Financial Crisis of the late 2000s. Job quality is offered as a solution to challenges such as health/welfare, productivity, innovation, economic competitiveness, democracy and democratic participation, Bildung/cultivation, societal equality, individual and collective quality of life and environmental sustainability. As job quality is a key factor in addressing these and the other challenges it needs to be understood in all its complexity in terms of what it affects as well as what affects it. This Handbook draws together into a single volume first an explicit focus on job quality both as a significant factor in and of itself and as producing instrumental effects on a range of

other processes and outcomes second a catalogue of the diverse range of multiple contributions and applications related to job quality and third the complexity and multiple interpretations of the concept of job quality Each chapter provides distinct responses to the question of why job quality matters coupled to a contention about for whom or for what job quality matters most As the chapters with their respective answers and arguments attest there are a range of ways in which job quality is relevant to an equally broad range of social economic and political concerns      *Scratching Out a Living* Angela

the collapse of the Soviet Union in the 1990s Cuba lost its most significant trade partner Although trade agreements have improved the quantity and quality of rationed food in Cuba many Cubans still report living with food shortages and economic hardship Garth tells the stories of families that face the daily challenge of acquiring not only enough food but food that meets personal and cultural standards She argues that these ongoing struggles produce what the Cuban families describe as a change in character and that for some this shifting concept of self leads to a transformation of Cuban identity *The Marginalized in Death* Jennifer F. Byrnes, Iván Sandoval-Cervantes, 2022-08-31 This volume bridges the gap between forensic and cultural anthropology in how both disciplines describe and theorize the dead highlighting the potential for interdisciplinary scholarship As applied disciplines dealing with some of the most marginalized people in our society forensic anthropologists have the potential to shed light on important and persistent social issues that we face today Forensic anthropologists have successfully pursued research agendas primarily focused on the development of individual biological profiles time since death recovery and identification Few however have taken a step back from their lab bench to consider how and why people become forensic cases or place their work in a larger theoretical context Thus this volume challenges forensic anthropologists to reflect how we can use our toolkit and databases to address larger social issues and quandaries that we face in a world where some are spared from becoming forensic anthropology cases and others are not As witnesses to violence crimes against humanity and the embodied consequences of structural violence we have the opportunity and arguably the responsibility to transcend the traditional medico legal confines of our small sub discipline by synthesizing forensic anthropology casework into theoretically grounded social science with potentially transformative impacts at a global scale Researching Corporations and Global Health Governance Kelley Lee, Benjamin Hawkins, 2016-12-12 The profound changes to the world economy since the late twentieth century have been characterised by a growth in the number and size of transnational corporations In this context there is now increasing evidence of unprecedented reversals in health indicators among populations around the world Research in this area has focused on documenting the global health impacts arising from the economic activity of corporations The challenge for public health researchers is to understand the ways in which corporations are regulated by and participate in global health governance and implications for health and well being across the globe This book is an introductory guide to conducting research on the role of corporations in global health governance from a range of disciplinary perspectives and gives an overview of different approaches methodologies and data sources Also for case studies providing interdisciplinary empirical analysis of the impact of corporations on global health and global health governance see the partner volume <http://www.rowmaninternational.com/books/case-studies-on-corporations-and-global-health-governance>
