The Netflix Effect Kevin McDonald, Daniel Smith-Rowsey, 2016-08-11 Netflix is the definitive media company of the 21st century. It was among the first to parlay new Internet technologies into a successful business model and in the process it changed how consumers access film and television. It is now one of the leading providers of digitally delivered media content and is continually expanding access across a host of platforms and mobile devices. Despite its transformative role, however, Netflix has drawn very little critical attention far less than competitors such as YouTube, Apple, Amazon, Comcast, and HBO. This collection addresses this gap as the essays are designed to critically explore the breadth and diversity of Netflix's effect from a variety of different scholarly perspectives, a necessary approach considering the hybrid nature of Netflix, its inextricable links to new models of media production, distribution, viewer engagement, and consumer behavior, its relationship to existing media conglomerates and consumer electronics, its capabilities as a web-based service provider and data network, and its reliance on a broader technological infrastructure.

Consumer Behaviour Robert East, Jaywant Singh, Malcolm Wright, Marc Vanhuele, 2021-09-29 A serious, thoughtful consumer behaviour text that focuses on substance rather than what's fashionable in academic circles. Professor Byron Sharp, Ehrenberg Bass Institute, University of South Australia. A thought-provoking text that challenges readers to consider consumer behaviour in new and refreshing ways and reflect on routine behaviours that occupy so much of daily life: buying brands, patronising stores, watching adverts, making recommendations. Professor Mark Uncles, Deputy Dean, Australian School of Business, University of New South Wales. Written by respected marketing academics, this popular textbook extends beyond a basic psychological approach to Consumer Behaviour by providing a more empirical understanding of the subject, helping students grasp marketing applications at both individual and market levels. The fourth edition maintains a strong focus on research, particularly quantitative methods, helping higher-level students develop analytical and evidence-based thinking for success in scholarly and industry-based marketing research. The textbook contains new examples, exercises, and research findings along with recent advancements in the digital environment. Suitable for upper undergraduate and postgraduate students taking courses in consumer behaviour as well as doctoral candidates with a focus on consumer behaviour. Robert East is Emeritus Professor at Kingston University, London, UK. Jaywant Singh is Professor of Marketing at Southampton Business School, University of Southampton, UK. Malcolm Wright is Professor of Marketing at Massey University, New Zealand. Marc Vanhuele is Professor of
