Congress. Senate. Committee on Finance,2007 **Fuzzy Business Models and ESG Risk** Magdalena Ziolo,2023-10-13 This book discusses fuzzy business models and focuses on using fuzzy logic in

business processes from the perspective of financial institutions when integrating ESG factors and risk. Developing and examining sustainable business models requires an appropriate methodology that would consider the specificity of business models because the measurement of this phenomenon is often based on values from specific ranges and requires a fuzzy approach. According to the law, regulations and recommendations, financial institutions and businesses must incorporate Environmental, Social, Governance factors and ESG risk in their decision-making process. Sustainable financial institutions include ESG risk in their risk management system strategies and policies. As a result, they hope to mitigate ESG risk and create sustainable value in their business models with an impact on sustainable value creation. This book discusses this phenomenon in detail. One of the first on the market to address the issue of fuzzy business models, the book also deals comprehensively with the fuzzy logic in modeling business processes, decision-making processes, and business models using examples from financial institutions and will be of interest to researchers, professors, and students of sustainable finance, banking, and sustainable development alongside corporate sustainability.

Bankruptcy and Reorganization in the Digital Business Era Özsungur, Fahri, Tetik, Nevzat, Kanat, Ersin, 2023-03-13. The arrangement of bankruptcy, which is a critical issue for the debtors whose financial structure has deteriorated, protects the debtors from bankruptcy and enables the creditors to collect their receivables, albeit partially. Although the concordat is intended to protect bona fide debtors and creditors, it can be said that payments not made during the concordat deadlines put the creditors in financial distress and harm the economy at the macro level. In this context, it is necessary to examine the subject in depth to prevent abuse of concordat requests and to obtain better results both legally and financially. *Bankruptcy and Reorganization in the Digital Business Era* examines the basic structure of the arrangement of bankruptcy within various countries and the evaluation of the financial results of the enterprises that have declared the arrangement of bankruptcy. Covering key topics such as economics, financial distress, risk management, and banking, this premier reference source is ideal for business owners, managers, industry professionals, researchers, scholars, academicians, practitioners, instructors, and students.

Financial Management for Decision Makers Peter Atrill, 2019-12-16. Now in its ninth edition, *Financial Management for Decision Makers* provides students with a unique focus on the practical application of financial management and its role in decision-making. Covering topics such as financial planning, making capital investment decisions, and financing a small business, it provides an ideal introduction to the world of financial management. New to this edition: A new chapter on international aspects of financial management which explores the benefits and problems associated with internationalisation and the management of foreign exchange risk. Updated explanations throughout including greater coverage of behavioural finance and share valuation methods. Increased number of activities giving more opportunities to engage with the key concepts. Updated Real World examples which provide connections between the theory and practice of financial decision-making. This text is ideal for undergraduates from a non-accounting or non-finance discipline taking an introductory module in financial management. It is also suitable for

postgraduate students enrolled on certificate and diploma courses in financial management as well as those enrolled on Diploma in Management Studies and MBA programmes The text can also be used by finance and accounting students as a foundation for further study A suite of resources are also available and accompany this text For instructors Solution s manual and PowerPoint slides For students Opportunities to practise and additional support given through a companion website The textbook integrates financial management business policy and management function and places emphasis on the integration of the finance function within the context of managerial decision making and business planning It also helps students to understand why sometimes theory and practice differ Activities within the main text are inserted at appropriate points and Real World examples introduce readers to real life scenarios and offer an opportunity to apply financial management theory and techniques Dr Kalsoom Jaffar Lecturer and Course Director for BSc Finance Aston University Peter Atrill is a freelance academic who has worked with leading institutions in the UK Europe and SE Asia He was formerly the Head of Business and Management and Head of Accounting and Law at Plymouth Business School Plymouth University
