Steven Haggblade and Gelson Tembo

Farm Management Handbook Zimbabwe:

The Farming Handbook Barry Smith, 2006 Barry Smith's the farming handbook is a unique and comprehensive guide to a wide range of agricultural subjects and enterprises in one easy to use volume Although the focus is mainly on conditions in Southern Africa the principles and practices can be applied easily on the continent

Land and Water Management in Southern Africa Calvin Nhira, Alfred Mapiki, Sello Patrick Rankhumise, 2008 The Southern African Development Community SADC and its Member States are making renewed efforts to revive agriculture in the region Given that much of it is water stressed appropriate and sustainable land and water management practices are vital to achieving this objective Recognising this SADC's Land and Water Management Applied Research and Training Programme has convened two scientific symposiums Held in Lilongwe Malawi in February 2006 the inaugural symposium brought together practitioners from 10 participating SADC countries to deliberate on land and water management for sustainable agriculture and discuss how the most recent research and development advances in land and water management might be made more relevant to policymakers as well as the region's small scale farmers The edited contributions to this first symposium appear in this volume The second symposium was held in Gaborone Botswana in February 2007 and brought together regional experts to discuss opportunities for improving water use and water use efficiency in agriculture in semi arid and arid areas The edited contributions to the second symposium appear in a companion volume entitled Land and Water Management in Southern Africa Towards Better Water Use in Agriculture in Semi Arid and Arid Areas AISA 2008 It is hoped that these two volumes will help to disseminate regional expertise on land and water management to a wider audience thus helping policy makers and others to strengthen the agricultural sector in the region and in so doing improve its food security and the wellbeing of its people

Integrated Water Resources Management, Institutions and Livelihoods under Stress Collin C.

Mabiza, 2018-03-09 The majority of people in Limpopo river basin depend on rainfed agriculture Unfortunately the Limpopo is water scarce and parts of the basin such as Zimbabwe's Mzingwane catchment are under stress in terms of agro ecological and socio politicoeconomic conditions Integrated Water Resources Management IWRM has been adopted in the river basin in

Rethinking Water Management Caroline Figueres, Johan Rockstrom, Cecilia Tortajada, 2012 If water resources are to be distributed efficiently equitably and cost effectively in this rapidly changing world then it is clear that current water management practices are no longer feasible Innovative approaches are required to meet the increasing water demands of a growing world population and economy and the needs of the ecosystems supporting them New approaches have to be employed at global national and local levels In Rethinking Water Management a new generation of water experts from around the world examine the critical challenges confronting the water profession including rainwater and groundwater management recycling and reuse water rights transboundary access to water and financing of water They offer important new perspectives on the use management and conservation of fresh water in terms of both quantity and quality for the domestic agricultural and industrial sectors and show how a new set of paradigms can be applied to successfully manage water for the future Caroline Figueres is Head of the Urban Infrastructure Department at UNESCO IHE Water Education Institute in The Netherlands Cecilia Tortajada is Vice President of the Third World Centre for Water Management in Mexico and Vice President elect of the International Water Resources Association Johan Rockstrom is Water Resources Expert at UNESCO IHE

Conservation Agriculture in Africa Saidi Mkomwa, Amir H. Kassam, 2022-01-11 Tillage agriculture has led to widespread soil and ecosystem degradation globally and more particularly in the developing regions This is especially so in Africa where traditional agricultural practices have become unsustainable due to severe exploitation of natural resources with negative impacts on the environment and food system In addition agricultural land use in Africa today faces major challenges including increased costs climate change and a need to transform to more sustainable production intensification systems Conservation Agriculture has emerged as a major alternative sustainable climate smart agriculture approach in Africa and has spread to many African countries in the past decade as more development and research including in sustainable mechanization has enabled its extension and uptake It is key to transforming Africa's agriculture and food system given its ability to restore soil health biodiversity and productivity of millions of smallholder farms as well as larger scale farms This book is aimed at all agricultural stakeholders in the public private and civil sectors in Africa engaged in supporting the transformation of conventional tillage agriculture to Conservation Agriculture The book will be of interest to researchers academics students development stakeholders public

and private sector investors and policy makers as well as institutional libraries across the world

Contested Agronomy
 James Sumberg, John Thompson, 2012-03-15 The dramatic increases in food prices experienced over the last four years and their effects of hunger and food insecurity as well as human induced climate change and its implications for agriculture food production and food security are key topics within the field of agronomy and agricultural research *Contested Agronomy* addresses these issues by exploring key developments since the mid 1970s focusing in particular on the emergence of the neoliberal project and the rise of the participation and environmental agendas taking into consideration how these have had profound impacts on the practice of agronomic research in the developing world especially over the last four decades This book explores through a series of case studies the basis for a much needed political agronomy analysis that highlights the impacts of problem framing and narratives historical disjunctures epistemic communities and the increasing pressure to demonstrate success on both agricultural research and the farmers processors and consumers it is meant to serve Whilst being a fascinating and thought provoking read for professionals in the Agriculture and Environmental sciences it will also appeal to students and researchers in agricultural policy development studies geography public administration rural sociology and science and technology studies

Conservation Agriculture for Africa Amir H Kassam, Saidi Mkomwa, Theodor Friedrich, 2016-12-14 Tillage agriculture has led to widespread soil and ecosystem degradation globally This is especially so in Africa where traditional and modern tillage based agricultural practices have become unsustainable due to severe disturbance and exploitation of natural resources with negative impacts on the environment and rural livelihoods In addition agriculture in Africa today faces major challenges including increased costs of production and energy the effects of climate change and the lack of an effective paradigm for sustainable intensification especially for small and medium size holdings Africa is facing a serious challenge to food security and as a continent has not advanced towards eradicating hunger In addition the population is still growing much faster than on most other continents This pressure has led to the emergence of no till conservation agriculture as a serious alternative sustainable agriculture paradigm In Africa in recent years conservation agriculture techniques and methods have spread to many countries as greater development education and research effort are directed towards its extension and uptake This book is aimed at agricultural researchers and scientists educationalists and agricultural service providers institutional leaders and policy makers working in the fields of sustainable agriculture and international development and also at agroecologists conservation scientists and those working on ecosystem services

Zimbabwe Deborah

Helen Potts, Deborah Potts, 1993 **Zimbabwe Agricultural Journal** , 1986 Conservation Farming in Zambia Steven Haggblade and Gelson Tembo, *Soil fertility research for maize-based farming systems in Malawi and Zimbabwe* Stephen R. Waddington, 1998 Zimbabwe National Bibliography , 1990 *Food Security for African Smallholder Farmers* Hupenyu Allan Mupambwa, Adornis Dakarai Nciizah, Patrick Nyambo, Binganiidzo Muchara, Ndakalimwe Naftal Gabriel, 2022-02-28 This book provides a synthesis of current agricultural research in Africa with the aim of presenting evidence based information that can be directly applied into improving the African smallholder farmers food security It presents positive scientific research that has been undertaken in Africa in simpler terms thus driving the research for development agenda contributing to the attainment of SDG 2 Numerous research that targets resource poor African smallholder farmers has been published yet the region faces very low productivity levels This lack of translation from research to food security and increased agricultural incomes is due to the poor uptake of scientific research by farmers which is partly due to poor presentation of this body of knowledge into simpler forms that extension workers and farmers can directly adopt Therefore this book offers research information in an easy digestible and application oriented style so as to enable transformation of the African agricultural sector by effectively driving agricultural productivity in Africa This book is of interest to African extension workers who will translate the simplified knowledge into lessons that can be useful to smallholder farmers The book is also beneficial for policy makers as well as academics researchers and other science based professionals **Farm Management Handbook** Jacobus De Jong, Zimbabwe. Department of agricultural, technical and extension services, 1982 *Water Productivity in Agriculture* J. W. Kijne, Randolph Barker, D. J. Molden, 2003 First title in a major new series Addresses improving water productivity to relieve problems of scarcity and competition to provide for food and environmental security Draws from scientists having a multitude of disciplines to approach this important problem In a large number of developing countries policy makers and researchers are increasingly aware of the conflicting demands on water and look at agriculture to be more effective in its use of water Focusing on both irrigated and rain fed agriculture this book gives a state of the art review of the limits and opportunities for improving water productivity in crop production It demonstrates how efficiency of water use can be enhanced to maximize yields The book represents the first in a new series of volumes resulting from the Comprehensive Assessment of Water Management in Agriculture a research program conducted by the CGIAR s Future Harvest Centres the Food and Agriculture Organization of the United Nations and partners worldwide It will be of significant interest to those working in areas of soil and crop science water management irrigation and development studies
