Advances in Accounting Education Dorothy Feldmann, Timothy J. Rupert, 2014-06-04 *Advances in Accounting Education Teaching and Curriculum Innovations* investigates how teaching methods or curricula programs in accounting can be improved Volume 15 includes papers examining communication apprehension self directed learning in managerial accounting courses and a section on integrating accounting with other business disciplines **Management and Cost Accounting** Andreas Taschner, Michel Charifzadeh, 2020-09-01 Management and cost accounting has been the basic toolbox in business administration for decades Today it is an integral part of all curricula in business education and no student can afford not to be familiar with its basic concepts and instruments At the same time business in general and management accounting in particular is becoming more and more international English clearly has evolved as the lingua franca of international business Academics students as well as practitioners exchange their views and ideas discuss concepts and communicate with each other in English This is certainly also true for cost accounting and management accounting Management Accounting is becoming increasingly international Management and Cost Accounting is a new English language textbook covering concepts and instruments of cost and management accounting at an introductory level Bachelor but also suited for MBA courses due to strong focus on practical applications and cases This textbook covers all topics that are relevant in management accounting in business organizations and that are typically covered in German and Central European Bachelor classes on cost accounting and management accounting After an introduction to the topic including major differences between the German approach and the purely Anglo Saxon approach of management accounting the book describes different cost terms and concepts applied in German cost accounting The book is much more specific here compared to US American standard textbooks Based on different cost concepts the topic of cost behavior is discussed including the determination of cost functions The heart of the book guides the reader through the general structure of a fully developed cost accounting system following the German and Central European standard It starts with cost type accounting moves on to cost center accounting and finally deals with cost unit accounting assigning cost to goods and services offered in the market The remaining parts of the book deal with decision making and how management and cost accounting data can support managers in this task A comparison of absorption costing and variable costing introduces the reader to management decisions such as product portfolio and outsourcing decisions Additionally cost volume profit analysis break even analysis is covered The book closes with a comprehensive treatment of cost planning and variance analysis Principles of Management Peter Eichhorn, Ian Towers, 2018-01-10 This textbook presents an overview of how the activities of an organisation can be managed to satisfy the needs of stakeholders through the cost effective operationally efficient and sustainable transformation of resources into outputs Taking an interdisciplinary approach the authors show the relationship between management and economics and within this framework present the key areas of management activity The book

explains the connections between these areas and provides tools and instruments for successful management The book s approach and content is relevant for all kinds of organisation private or public sector service or manufacturing non profit large or small Each chapter provides cases to illustrate what has been discussed and some questions to test comprehension Throughout the book is a continuing project in which the reader is put in the position of owning their own business and must think and make decisions about what the chapter has discussed The book combines Anglo American and German approaches to management and management studies making it a valuable resource both for those who are studying management and those who are working as managers Foundations of Airport Economics and Finance Hans-Arthur Vogel,2019-03-22

Foundations of Airport Economics and Finance analyzes the impact key economic indicators play on an airport s financial performance As rapidly changing dynamics including liberalization commercialization and globalization are changing the nature of airports worldwide this book presents the significant challenges facing current and future airports Airports are evolving from quasi monopolies to commercial companies operating in a global environment with ever increasing passenger and cargo volumes and escalating security costs that put a greater strain on airport systems This book highlights the critical changes that airports are experiencing providing a basic understanding of both the economic and financial aspects of the air transport industry Indigenous and Ethnic Empowerment Alf Walle,2018-10-29

Indigenous and Ethnic Empowerment Alf Walle,2018-10-29 Indigenous ethnic and rural peoples throughout the world struggle to effectively deal with the challenges triggered by outside economic and social intervention This book presents business methods in a manner that reflects the needs desires and priorities of indigenous peoples and provides the tools communities need to envision and deal with the full impact of social and economic intervention In particular the book helps local leaders and their advocates to better understand the full implications of the choices before them and develop skills to articulate and deal with local goals needs and priorities The book is distinctive because it helps people embrace opportunities and change on their own terms As a result leaders and their advocates will be better able to evaluate and respond to opportunities in an informed and systematic manner Various business disciplines such as accounting finance human resource management organizational theory and marketing are discussed in ways that help the reader to envision both mainstream perspectives and the distinctive issues faced by ethnic enclaves Finance Essentials Scott Moeller,2012-04-26 Collated by Scott Moeller of Cass Business School this collection brings together the informative articles a budding finance practitioner needs to operate effectively in today s corporate environment Bringing together core finance knowledge and cutting edge research topics in an engaging and effective way this text is the ideal companion for all practitioners and students of finance You will find insights into the practical applications of theory in key areas such as balance sheets and cash flow financial regulation and compliance funding and investment governance and ethics mergers and acquisitions and operations and performance Contributors to this collection include some of the leading experts in their respective fields Aswath Damodaran Harold Bierman Jr Andreas Jobst Frank J Fabozzi Ian Bremmer Javier Estrada Marc J
