Silence and Concealment in Political Discourse Melani Schröter, 2013-05-08 This book constitutes a significant contribution to political discourse analysis and to the study of silence both from the point of view of discourse

analysis as well as pragmatics and it is also relevant for those interested in politics and media studies It promotes the empirical study of silence by analysing metadiscourse about politicians silence and by systematically conceptualising the communicativeness of silence in the interplay between intention to be silent expectation of speech and relevance of the unsaid Three cases of sustained metadiscourse about silent politicians from Germany are analysed to exemplify this approach based on media texts and protocols of parliamentary inquiries Ideals of political transparency and communicative openness are identified as a basis for disappointed expectations of speech which trigger and determine metadiscourse about politicians silences Finally the book deals critically with the role of those who act as advocates of the public s demand to speak out

Revolution, Representation, and Authoritarianism Sarah

Wessel, 2021-11-29 This book examines Egypt's turbulent and contradictory political period 2011-2015 as key to understanding contemporary politics in the country and the developments in the Arab region after the mass protests in 2010-11 more broadly. In doing so, it breaks new ground in the study of political representation, providing analytical innovation to the study of disenchantment with politics, democracy fatigue, and social cohesion. Based on five years of intense fieldwork, the author provides rare insights into local and national ideas on politics, justice, and identity, and on how people situate themselves and Egypt in the regional and global context. It analyzes how the creation of an alternate political system was discussed and negotiated among the Egyptian population, the military, the government, public figures, the media, and international actors, and yet nevertheless today Egypt has a new political regime that is the most repressive in the country's modern history. Finally, it recalls the emotions and perceptions of individuals and collectives and interlinks these local perspectives to national events and developments through time. This book will be of key interest to scholars and students of democratization and authoritarianism, Middle East Studies, political representation and informality, collective action, and more broadly to cultural studies and international relations.

Mediatization and Sociolinguistic Change Jannis

Androutsopoulos, 2014-09-04 This is the first volume to focus on the role of media in processes of linguistic change, one of the most contested issues in contemporary sociolinguistics. Its 17 chapters and five section commentaries present cutting-edge research from variationist and interactional sociolinguistics, media linguistics, language ideology research, and minority language studies. The volume advances our understanding of linguistic change in a mediatized world in three ways. First, it introduces the notions of sociolinguistic change and mediatization to create a broader theoretical framing than the one offered by the media and language change. Second, it takes the discussion beyond the notions of influence and effect and the binary distinction of media vs. community language. Third, it examines the relation of sociolinguistic change and mediatization from five complementary viewpoints: media influence on linguistic structure, media engagement in interaction, change in mass and new media language, language ideological change, and the role of media for minority languages. Bringing these strands of sociolinguistic scholarship together, this volume examines their shared references and common lines of thinking.
