Feuerman Carole Feuerman, Dena Merriam, Eleanor C. Munro, 1999 Carole A Feuerman's sculpture combines superrealist technique with a humanist approach to her subjects This first monograph on her work is filled with David Finn's dramatic photographs covering two decades of her work including many enlarged details and multiple views providing a cinematic almost three dimensional experience. The work in resin cast marble bronze and other materials often painted ranges from early erotic reliefs through full scale sculptures of athletes and nudes Her women at their toilette are sculptural tours de force yet their intimacy recalls Degas s works on similar themes Recent fragments and body mappings are experiments with abstraction deconstruction and conceptualism at the same time that they explore the emotional life of their subjects penetrating to their spirit All of Feuerman's work reflects the two aspects of her vision. Her work is motivated by questions about the nature of reality and her remarkable skill as an artist leads the viewer to the same questions Yet beyond the simulacrum of reality Feuerman also manages to convey the feeling behind the intense physicality the passion and sensuality behind the seemingly mundane pose BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved in the Gallery Hugh McLeave, 2003 Rogues in the Gallery exposes it all the cozy insurance ransom racket the professional gangs of art thieves the specialists the connections with the international drug racket and the Mafia Hugh McLeave has researched the whys and wherefores of the question for years drawing on resources available to him through agencies such as Interpol the FBI the French Sret r and Scotland Yard Rogues in the Gallery is a lively and informed account of the causesOCoand limited curesOCoof this epidemic It charts the classic outbreaks portrays the rich gallery of protagonists and defines what means there are to combat the disease But even with sophisticated computers and Interpol the total elimination of art theft is unlikely As long as auction prices continue to rise and inflation devalues savings the theft of precious objects will flourish The lure of easy money is at the root This is a serious book on an urgent problem especially for those who collect art For an author bio photo and a sample read visit bosonbooks com **Vivarium** Gerd B. Mancall, 2011-03-17 In the early modern age more people traveled farther than at any earlier time in human history Many returned home with stories of distant lands and at least some of the objects they collected during their journeys And those who did not travel eagerly acquired wondrous materials that arrived from faraway places Objects traveled various routes personal imperial missionary or trade and moved not only across space but also across cultures Histories of the early modern global culture of collecting have focused for the most part on European Wunderkammern or cabinets of curiosities But the passion for acquiring unfamiliar items rippled across many lands The court in Java marveled at collected and displayed myriad goods brought through its halls African princes traded captured members of other African groups so they could get the newest kinds of cloth produced in Europe Native Americans sought colored glass beads made in Europe often trading them to other indigenous groups Items changed hands and crossed cultural boundaries frequently often gaining new and valuable meanings in the process An object that might have seemed mundane in some cultures could become a target of veneration in another The fourteen essays in Collecting Across Cultures represent work by an international group of historians art historians and historians of science Each author explores a specific aspect of the cross cultural history of collecting and display from the dawn of the sixteenth century to the early decades of the nineteenth

century As the essays attest an examination of early modern collecting in cross cultural contexts sheds light on the creative and complicated ways in which objects in collections served to create knowledge some factual some fictional about distant peoples in an increasingly transnational world Canadiana ,1991 Le Domaine de la Romanee-Conti Gert Crum, Michael Broadbent, 2006-10-06 Le Domaine De La Romanee Conti centers around the most mythical Burgundy wines This sumptuous and classy publication outlines the history as well as the reputation and grandeur of this wine and pays tribute to the Domaine itself Afrika Afrika, Louis Grachos, 1992 The Restaurant Guide ,2003 The best restaurants in England Scotland Wales Ireland **Patronizing the Arts** Marjorie Garber, 2008-07-28 What is the role of the arts in American culture Is art an essential element If so how should we support it Today as in the past artists need the funding approval and friendship of patrons whether they are individuals corporations governments or nonprofit foundations But as Patronizing the Arts shows these relationships can be problematic leaving artists patronized both supported with funds and personal interest while being condescended to for vocations misperceived as play rather than serious work In this provocative book Marjorie Garber looks at the history of patronage explains how patronage has elevated and damaged the arts in modern culture and argues for the university as a serious patron of the arts With clarity and wit Garber supports rethinking prejudices that oppose art s role in higher education rejects assumptions of inequality between the sciences and humanities and points to similarities between the making of fine art and the making of good science She examines issues of artistic and monetary value and transactions between high and popular culture She even asks how college sports could provide a new way of thinking about arts funding Using vivid anecdotes and telling details Garber calls passionately for an increased attention to the arts not just through government and private support but as a core aspect of higher education Compulsively readable Patronizing the Arts challenges all who value the survival of artistic creation both in the present and On the Menu Nicholas Lander, 2016-11-03 From the Financial Times s long standing restaurant critic Nicholas future Lander comes this celebration of the history design and evolution of the world's favourite piece of paper the menu On the Menu is a stunning collection of menus from those at the cutting edge of contemporary culinary innovation like Copenhagen s Noma to those that are relics from another time a 1970s menu from L Escargot on which all main courses cost less than one pound the last menu from The French House Dining Room before Fergus Henderson departed for St John a Christmas feast of zoo animals served during the Siege of Paris in 1870 and three of the world's original restaurant menus now hanging proudly in London's Le Gavroche Throughout Lander examines the principles of menu design and layout the different rules that govern separate menus for breakfast afternoon tea and dessert the evolution of wine and cocktail lists and how menus can act as records of the past He reveals insights from interviews with Michael Anthony Heston Blumenthal Massimo Bottura Ren Redzepi Ruth Rogers and many more of the most renowned contemporary chefs of our time who explain how they decide what to serve and what inspires them to create and design their menus These are truly pages to drool over Frocking Life
