Ecolinguistics Arran Stibbe, 2015-05-01 The increasingly rapid destruction of the ecological systems that support life is calling into question some of the fundamental stories that we live by stories of unlimited economic growth of consumerism progress individualism success and the human domination of nature Ecolinguistics shows how linguistic analysis can help reveal the stories we live by open them up to question and contribute to the search for new stories Bringing together the latest ecolinguistic studies with new theoretical insights and practical analyses this book charts a new course for ecolinguistics as an engaged form of critical enquiry Featuring A framework for understanding the theory of ecolinguistics and applying it practically in real life Exploration of diverse topics from consumerism in lifestyle magazines to Japanese nature haiku A comprehensive glossary giving concise descriptions of the linguistic terms used in the book Discourse analysis of a wide range of texts including newspapers magazines advertisements films nonfiction books and visual images This is essential reading for undergraduates postgraduates and researchers working in the areas of Discourse Analysis and Language and Ecology

Aquaculture Marketing Handbook Carole R. Engle, Kwamena K. Quagraine, 2008-02-28 Markets marketing and trade have become ever more important to growing aquaculture industries worldwide The diversity and idiosyncrasies of the aquaculture and seafood markets call for understanding information that is unique to these markets Presenting fundamental principles of marketing and economics from a user friendly how to perspective the Aquaculture Marketing Handbook will provide the reader with the tools necessary to evaluate and adapt to changing market conditions The Aquaculture Marketing Handbook provides the reader with a broad base of information regarding aquaculture economics markets and marketing In addition this volume also contains an extensive annotated bibliography and webliography that provide descriptions to key additional sources of

information Written by authors with vast international aquaculture marketing experience the Aquaculture Marketing Handbook is an important introduction to aquaculture marketing for those interested in aquaculture and those new to the professional field The body of knowledge presented in this book will also make it a valuable reference for even the most experienced aquaculture professional

Emergent Results of Artificial Economics Sjoukje Osinga, Gert Jan Hofstede, Tim Verwaart, 2011-06-22 Artificial economics is a computational approach that aims to explain economic systems by modeling them as societies of intelligent software agents The individual agents make autonomous decisions but their actual behaviors are constrained by available resources other individuals behaviors and institutions Intelligent software agents have communicative skills that enable simulation of negotiation trade reputation and other forms of knowledge transfer that are at the basis of economic life Incorporated learning mechanisms may adapt the agents behaviors In artificial economics all system behavior is generated from the individual agents simulated decisions no system level laws are a priori imposed For instance price convergence and market clearing may emerge but not necessarily Thus artificial economics facilitates the study of the mechanisms that make the economy function This book presents a selection of peer reviewed papers addressing recent developments in this field between economics and computer science

Ecological Economics Michael Common, Sigrid Stagl, 2005-10-13 Taking as its starting point the interdependence of the economy and the natural environment this book provides a comprehensive introduction to the emerging field of ecological economics The authors who have written extensively on the economics of sustainability build on insights from both mainstream economics and ecological sciences Part I explores the interdependence of the modern economy and its environment while Part II focuses mainly on the economy and on economics Part III looks at how national governments set policy targets and the instruments used to pursue those targets Part IV examines international trade and institutions and two major global threats to sustainability climate change and biodiversity loss Assuming no prior knowledge of economics this textbook is well suited for use on interdisciplinary environmental science and management courses It has extensive student friendly features including discussion questions and exercises keyword highlighting real world illustrations further reading and website addresses

Handbook of Teaching Philosophy to Economists Giancarlo Ianulardo, John B. Davis, Ricardo F. Crespo, 2025-09-10 In recent years there have been increasing calls for a revision of the economics curriculum to address the most pressing and challenging issues facing society This erudite Handbook bridges the gap between a flourishing body of scholarship in the philosophy of economics literature and an economics education in need of a deeper rethinking as felt by both students and educators It provides practical pedagogical insights on how to structure courses in the philosophy of economics and how to link them to students economics backgrounds
