Mockingbird Kathryn Erskine:

Mockingbird Kathryn Erskine, 2010-04-15 THE NATIONAL BOOK AWARD WINNER and ONE OF THE MOST IMPORTANT NOVELS OF OUR TIME FOR YOUNG READERS Caitlin has Asperger's. The world according to her is black and white; anything in between is confusing. Before when things got confusing, Caitlin went to her older brother Devon for help. But Devon was killed in a school shooting, and Caitlin's dad is so distraught that he is just not helpful. Caitlin wants everything to go back to the way things were, but she doesn't know how to do that. Then she comes across the word closure, and she realizes this is what she needs. And in her search for it, Caitlin discovers that the world may not be so black and white after all. Powerful Publishers Weekly. A strong and complex character study. The Horn Book. Allusions to Harper Lee's *To Kill a Mockingbird*; the portrayal of a whole community's healing process and the sharp insights into Caitlin's behavior enhance this fine addition to the recent group of books with narrators with autism and Asperger's. Booklist. Lessons in Disability Jacob Stratman, 2015-11-16 Disability is a growing reality. According to the United States Census Bureau, approximately 57 million people, 19 percent of the population, had a disability in 2010, more than half being reported as severe. Interest in disability studies is also growing in literature, film, art, politics, and religion. Exploring the intersection between disability and young adult literature, this collection of new essays fills a gap in scholarship between teachers and YAL scholars. The contributors offer textual analysis, best practices, and numerous examples that enable teachers to expose students to dynamic characters who both reflect and contrast with the reader's reality. Moving Beyond Personal Loss to Societal Grieving Michelle M. Falter, Steven T. Bickmore, 2018-11-23 *Moving Beyond Personal Loss to Societal Grieving* considers how secondary English language arts teachers and teacher educators can sensitively and thoughtfully teach pieces of literature in their classrooms in which large-scale deaths are a significant, if not central, aspect of the texts. As mass shootings and violence against black and brown bodies increase, and issues such as AIDS, war, and genocide remain important to discuss as part of a shared critical and social consciousness, this book provides resources for educators to directly tackle and discuss these topics through the texts they read in their ELA classrooms. Whether it is canonical or contemporary literature, middle grades or young adult literature, fiction, nonfiction, or graphic novels, literature provides a vehicle to have these difficult but needed conversations about not only the personal but social effects of death and grief in our society. Each chapter in this book focuses on 1-2 texts and provides practical activities that ask students to engage with death, dying, and loss through writing, assignments, projects, activities, and discussion prompts in order to build empathy, understanding, and develop critically minded and engaged students. *Moving Beyond Personal Loss to Societal Grieving* will be of interest to English language arts teachers, teacher educators, librarians, and scholars who wish to explore with their students the complex emotions that revolve around discussing deaths that occur in literature. *Al Capone Shines My Shoes* Gennifer Choldenko, 2009-09-08 Moose and the cons are about to get a lot closer in this much anticipated sequel to *NEWBERY HONOR Al Capone Does My Shirts It's*

Connecting Libraries with Classrooms Kay Bishop, 2011-03-09 This book provides an in-depth exploration of the topics that are currently relevant in K-12 curricula, including the school librarian's role in dealing with these issues, collaborating with teachers, and connecting to classrooms. This latest version of *Connecting Libraries with Classrooms: The Curricular Roles of the Media Specialist* is intended to help school librarians to collaborate with teachers in subject areas, meet the needs of special groups of students, and be fully aware of important educational trends. The first chapter covers collaboration and partnerships within the school setting, providing a background for the subsequent subject matter. The balance of the book addresses the role of the school librarian in the modern K-12 curriculum. This information is organized into the curricula of reading, music, and English as a second language, three groups of special students: students with autism, highly mobile students, and LGBT students, and critical trends in education: Web 2.0, distance education, and inclusion. This resource is an invaluable aid for practicing school librarians and serves as a core textbook for preservice school librarians.

Reading for Learning Maria Nikolajeva, 2014-06-15 How does reading fiction affect young people? How can they transfer fictional experience into real life? Why do they care about fictional characters? How does fiction enhance young people's sense of selfhood? Supported by cognitive psychology and brain research, this ground-breaking book is the first study of young readers' cognitive and emotional engagement with fiction. It explores how fiction stimulates perception, attention, imagination, and other cognitive activity, and opens radically new ways of thinking about literature for young readers. Examining a wide range of texts for a young audience, from picturebooks to young adult novels, the combination of cognitive criticism and children's literature theory also offers significant insights for literary studies beyond the scope of children's fiction. An important milestone in cognitive criticism, the book provides convincing evidence that reading fiction is indispensable for young people's intellectual, emotional, and social maturation.

Portrait of the Artist as a Young Adult Lois Thomas Stover, Connie S. Zitlow, 2013-10-30 Young adults often struggle with confusion or guilt because they perceive themselves as different from others, especially their peers. For some of these individuals, the arts can help them cope with adolescent turmoil, allowing them to express their emotions in poems, stories, paintings, songs, and other creative outlets. Sensitive teachers and parents know how important it is for young people to realize that they are not alone in their quest for self-knowledge and finding their way in the world. It can make a difference when readers find

something in a book that helps them understand more about who they are and helps them understand others In *Portrait of the Artist as a Young Adult* The Arts in Young Adult Literature Lois Thomas Stover and Connie S Zitlow examine books in which the coming of age for young adults is influenced by the arts Stover and Zitlow consider the connection between the arts and a young person s developing sense of self the use of art to cope with loss and grief and how young adults can use art to foster catharsis and healing The young people in these books either identify as artists or use the arts in intentional ways to explore their identities They often have artistic gifts that make them stand outside the norms of teenage life yet those gifts also help them find a sense of community Artists considered in this book include painters photographers sculptors actors directors choreographers dancers composers musicians graffiti artists and others The books discussed also explore the ways adults can nurture the artist s development and understand the way young people sometimes use the arts to form their unique identity Included is an annotated bibliography organized by art discipline as well as an appendix about using the arts pedagogically making *Portrait of the Artist as a Young Adult* a valuable resource for educators parents librarians and young adults
