John Vivian, 2019-01-31 *A History of Mass Communication* Irving Fang, 1997-02-27 This exciting new text traces the common themes in the long and complex history of mass communication. It shows how the means of communicating grew out of their eras, how they developed, how they influenced the societies of those eras, and how they have continued to exert their influence upon subsequent generations. The book is divided into six periods which are identified as Information Revolutions, writing, printing, mass media, entertainment, the toolshed which we call home now, and the Information Highway. In looking at the ways in which the tools of communication have influenced and been influenced by social change, *A History of Mass Communication* provides students of media and journalism with a strong sense of the way their chosen field affects how society functions. Providing a broad-based approach to media history, Dr. Fang encourages the reader to take a careful look at where our culture is headed through the tools we use to communicate with one another. *A History of Mass Communication* is not only the most current text on communication history but also an invaluable resource for anyone interested in how methods of communication affect society. **Media of Mass Communication Interactive Edition** Vivian, 2000-04

Journalism is a form of communication but it's distinct from other forms It is unique because it's a one way message or story from the journalist to the audience It's most unique because the message isn't the journalist's personal story or subjective thoughts Instead the journalist acts as a conduit narrating an objective story about something that happened or is happening based on his or her observations and discoveries Journalism can be distinguished from other activities and products by certain identifiable characteristics and practices These elements not only separate journalism from other forms of communication they are what make it indispensable to democratic societies History reveals that the more democratic a society the more news and information it tends to have Journalism means writing for newspapers or magazines It is the communication of information through writing in periodicals and newspapers The people have an inborn desire to know what's novel or new This curiosity is satisfied by the journalists through their writing in the newspapers and journals on current affairs and news This book provides a lively and authoritative introduction to journalism in all its forms The focus of the book is to show how journalists do their job not only by explaining the process but also by hearing from those who do it on a daily basis The book is a product of communication revolution and changing mass communication perspectives , *Journalism, Reporting, Writing and Editing* Rowan Kidd, 2018-01-25 The present book has been brought into being in view of incessant demand pertaining to the

subject Journalism inherently requires that stories be told in depth Many newspapers have cut out long articles even before the Internet They have followed the example set by television news They have been hit by the rising price of newsprint and the renewed emphasis on cost cutting They are convinced that readers are pressed for time impatient with detail and conditioned to ingest the news in pellet like form The bulk of broadcast news is reporting in the sense that is used is different rather than journalism It is epitomized by the two minute wire service radio bulletin on the hour already a fast disappearing format In this incisive and well presented work the book has synthesized the findings to lay down principles of sound journalism for both those in the industry and the citizens who rely on the free press as a fundamental element of democracy First and foremost among these principles is journalism s obligation to the truth It will immensely benefit students teachers mass communicators theoreticians and practitioners alike Something usable today a ready reckoner for years to come and a collector s item for all times A must read durable and preservable
