## **Medusa In The Mirror Of Time:**

**Medusa** David Leeming, 2013-06-01 With her repulsive face and head full of living venomous snakes Medusa is petrifying quite literally since looking directly at her turned people to stone Ever since Perseus cut off her head and presented it to Athena she has been a woman of many forms a dangerous female monster that had to be destroyed an erotic power that could annihilate men and thanks to Freud a woman whose hair was a nest of terrifying penises that signaled castration She has been immortalized by artists from Leonardo da Vinci to Salvador Dal and was the emblem of the Jacobins after the French Revolution Today she is viewed by feminists as a noble victim of patriarchy and used by Versace in the designer's logo for men's underwear haute couture and exotic dinnerware She even gives her name to a sushi roll on a Disney resort menu Why does Medusa continue to have this power to transfix us David Leeming seeks to answer this question in Medusa a biography of the mythical creature Searching for the origins of Medusa's myth in cultures that predate ancient Greece Leeming explores how and why the mythical figure of the gorgon has become one of the most important and enduring ideas in human history From an oil painting by Caravaggio to Clash of the Titans and Dungeons and Dragons he delves into the many depictions of Medusa ultimately revealing that her story is a cultural dream that continues to change and develop with each new era Asking what the evolution of the Medusa myth discloses about our culture and ourselves this book paints an illuminating portrait of a woman who has never ceased to enthrall

Medusa's Mirrors Julia M. Walker, 1998 The question of selfhood in Renaissance texts constitutes a scholarly and critical debate of almost unmanageable proportions The author of this work begins by questioning the strategies with which male writers depict powerful women Although Spenser's Britomart Shakespeare's Cleopatra and Milton's Eve figure selfhood very differently and to very different ends they do have two significant elements in common mirrors and transformations that diminish the power of the female self

The Family in the Mirror Drew Bridges, 2015-12-18 As an abused child Melinda Master was sent to a psychiatric clinic to help healing her emotional scars The young director of the clinic was John Randt and despite his good intentions nothing was done to help her She left just as traumatized as when she arrived and returns to a cult like existence As an adult Melinda comes back into the life of John Randt who still runs the clinic He is now distracted and vulnerable due to various losses in his own life But now Melinda is not alone She brings as part of her life a developmentally disabled child a beautiful young yoga instructor and a woman of darkness who offers Melinda a shocking plan as a path out of the personal prison of her father's home Due to John's pain he is charmed by Melinda and soon falls into a relationship with her not knowing she plans his death The trap is set and ready to spring John's only hope for survival is in recognizing the true identity of Melinda and those who support her murderous cause He is isolated from family and friends just as traumatized as his ex-patient so will anyone escape this poisonous game unscathed

Suicidal Maniacs and the Lady of Shalott Roberta Morris, 2012-10-23 The daughter's story is not the mother's nor is it that of Tennyson's Lady of Shalott where freedom is suicide No Eliza is the author of her own fate but with their family of five shrunk to the two of them the mother daughter dyad must be split Like splitting an atom the energy released can be explosive though more vital than deadly

The Genesis and Geometry of the Labyrinth Patrick Conty, 2002-12-01 A groundbreaking look at the phenomenon of the labyrinth connecting this ancient symbol to modern scientific principles Illustrated with labyrinths from around the world and throughout history Demonstrates how the labyrinth differs from a maze and how it is a tool for interpreting ancient myths and religious beliefs Draws parallels between the labyrinth and quantum physics showing how through the secrets of the labyrinth we can unlock the mystery of life itself The powerful symbol of the labyrinth exists in countless cultures spanning the globe from Africa and ancient Greece to India China and pre Colombian North and South America For centuries they have been used for religious rituals meditation and spiritual and physical healing In the labyrinth humanity finds a model of the quintessential sacred space that depicts the most profound levels of consciousness Its center is regarded in many cultures as a door between two worlds thus providing individuals with the ideal place for self questioning and meditation In a comprehensive exploration of this time honored symbol Patrick Conty shows how the geometrical construction of the ancient labyrinth corresponds exactly with today's modern geometry illustrating that recent developments in math and physics parallel the science of ancient civilizations By looking at the way the two systems complement each other Conty draws new conclusions about the ancient world and how that world can benefit us right now Conty explores not only physical labyrinths but also reveals how the same transcendent principles are at work in Celtic knot work the designs of ancient Chinese cauldrons the tattoos and tracings of primitive art the textiles of Africa Peru and Central America and the geometric patterns in Islamic art

Gleyzon, 2010-03-19 Shakespeare's *Spiral* aims to explore a figure forgotten in the dramatic texts of Shakespeare and in Renaissance painting the snail. Taking as its point of departure the emergence of the gastropod object subject in the text of *King Lear* as well as its iconic interface in Giovanni Bellini's painting *Allegory of Falsehood* circa 1490, this study sets out to follow the particular path traced by the snail throughout the work. From the central scene in which the metaphor of the snail and of its shell is specifically made manifest when Lear discovers in a raging storm the spectacle of Edgar disguised as Poor Tom coming out of his shelter (III 3 6 9) to the monster this fiend displaying on the cliffs of Dover horns whelked and waved like the enridged sea (IV 6 71), this work is the trace of a narrative of a journey of the gaze during the course of which the cryptic question of the gastropod *Why a Snail* (I 5 26) does not cease to be developed and transformed. Incorporating a wide-ranging post-structuralist critique, the study aims to bring to light the particular functions of this revealing detail in both its textual and visual dimension so as to put forward a new and innovative understanding of the tragedy of *King Lear*.
