Understanding Startups From Idea to Market Yenchun Jim Wu, Chih-Hung Yuan, Mu-Yen Chen, 2022-04-08

Product Design Mike Baxter, 2018-10-03 The discovery of market needs and the manufacture of a product to meet those needs are integral parts of the same process Since most textbooks on new product development are written from either a marketing or an engineering perspective it is important for students to encounter these two aspects of product development together in a single text Product Design Practical Methods for the Systematic Development of New Products covers the entire new product development process from market research through concept design embodiment design design for manufacture and product launch Systematic and practical in its approach the text offers both a structured management framework for product development and an extensive range of specific design methods Chapters feature Design Toolkits that provide detailed guidance on systematic design methods present examples with familiar products and conclude with reviews of key concepts This major text aims to turn the often haphazard and unstructured product design process into a quality controlled streamlined and manageable procedure It is ideal for students of engineering design and technology on their path to designing new products

Proceedings of the 2024 3rd International Conference on Social Sciences and Humanities and Arts (SSHA 2024) Mohd Fauzi bin Sedon, Intakhab Alam Khan, Mehmet Cüneyt Birkök, KinSun Chan, 2024-06-20 This is an open access book With the progress of social civilization social science and its research are becoming more and more important Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science Max Weber once said that the most

important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions And by reacting to today s increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc Marine Design XIII
