Field Guide to the Mammals of Southern Africa Chris Stuart, 1988 **First Field Guide to Mammals of Southern Africa** Sean Fraser, 2016

The Mammals of the Southern African Sub-region J. D. Skinner, Christian T. Chimimba, 2005-11-15 This third extensively revised edition of The Mammals of the Southern African Subregion contains detailed descriptions of all mammals that occur naturally on the African mainland south of the Cunene and Zambezi rivers together with all mammals indigenous to the subregion's coastal waters The rapid accumulation of new information resulting from mammal research in southern Africa together with radical taxonomic changes across all levels of mammalian classification have necessitated this new edition which presents the best and latest

data accurately in one comprehensive volume for use not only by scientists but also by an increasingly wide audience of general readers with an interest in the natural history of southern Africa J D Skinner and C T Chimimba have revised expanded and updated the text in a major project overseen by an editorial committee constituted by the Mammal Research Institute at the University of Pretoria Specialists on each mammalian order have served as subeditors and a range of independent and internationally recognised authorities have reviewed every species description In this edition all the distribution maps and many of the illustrations of mammal prints have been updated and redrawn several new colour plates have been added and the whole design of this definitive reference work has been enhanced to ensure easy access to information

BOOK JACKET Chris and Tilde Stuart's Field Guide to the Mammals of Southern Africa Chris Stuart,Tilde Stuart,1988 *Stuarts' Field Guide Mammals of Southern Africa (including Angola, Zambia and Malawi)* Chris Stuart,Mathilde Stuart,2025-10-30 Southern Africa has about 530 mammal species ranging from little shrews and bats to elephant lion and rhino The region is also home to many marine species seals dolphins and whales that inhabit both coastal and deeper waters Now updated to reflect the latest taxonomic findings Field Guide to Mammals of Southern Africa will help with the identification of the iconic larger animals as well as the often bewildering array of smaller species The detailed descriptions of each species offer insight into key identification characters typical behaviour preferred habitat food choice reproduction and longevity Full colour images and revised distribution maps complement the species accounts *Southern African Mammals Made Simple* Doug Newman,Gordon King,2013-12-05 Southern African mammals made simple enables users to distinguish between commonly confused mammals by applying the breakthrough methodology that made Southern African LBJs made simple so hugely popular The simple three step system allows for quick and certain identification of mammals in the field For each species featured the book gives range maps full colour illustrations and photographs key identification pointers and concise text describing height weight habits and habitat Distinctive and iconic animals are included but the particular value of this book lies in making separation of the more challenging species possible such as antelope mongooses genets primates and many more It will appeal to both local and foreign visitors to our game parks

Smithers Mammals of Southern Africa Peter Apps,Reay H.N. Smithers,2012-04-05 This popular and authoritative field guide to the mammals of southern Africa has been fully revised and updated to include the latest research while remaining accessible and compact for use in the field Detailed accounts of over 220 land and nine marine mammal species are discussed in depth with full species descriptions detailing physical characteristics habitat diet life history behaviour field signs and conservation status Beautiful accurate illustrations depict each species and there are up to date distribution maps spoor patterns symbols showing conservation status time of activity and whether the animal occurs only in the subregion As an extra aid to identification line drawings show the relative sizes of similar mammals drawn to a common scale Smithers numbers make for easy cross referencing to the first and third editions of Mammals of the Southern African Subregion

Written in non technical language and with a fresh design this field guide classic will appeal to general readers wildlife enthusiasts and professional guides as well as to students and specialists in the field *Field Guide to the Eastern & Southern Cape Coasts* Irene J.
