An Introduction to Accounting: Accountability in Organisations and Society 2e Craig Deegan, 2022-10-01 Written by Craig Deegan, Australia's premier sustainability and social accounting academic. *An Introduction to Accounting: Accountability in Organisations and Society* is the only resource in the market that brings corporate accountability, sustainability, and social responsibility together to provide a unique offering within the introductory accounting market. This text takes a unique approach by embracing from the start the notion of accountability for the environment and sustainability in accounting, providing students with an understanding of accounting's pervasive and transformative role as a social practice and organisational driver. It shows that environments, ideas, and values change the interconnectivity of society; that the planet must be respected as a resource and that people are affected/influenced by the information they receive and the way it is presented. The text emphasises that accounting and accountability are key aspects of every person's life and that the practice of accounting, while often being seen as very technical in nature, has many social implications. Learning accounting through the lens of sustainability and the environment embeds this perspective in students' minds so that in their careers they will actively seek and use accounting information to make decisions that take into consideration accountability for the environment. Manajemen impresi bukan merupakan tema baru karena konsepnya sudah ada sejak tahun 1945 oleh Kenneth Burke dan diperbaiki tahun 1959 oleh Erving Goffman. Namun topik ini akan selalu relevan untuk dikaji karena aktor atau pelaku upaya dan strategi serta tujuan merupakan tiga hal yang akan selalu ada dan mengalami perubahan sepanjang waktu mengikuti perubahan lingkungan. Perkembangan lebih baru dikemukakan oleh Fisher 1984 yang berupa teori komunikasi dengan pendekatan narasi. Pendekatan ini menjadi relevan dalam konteks pengungkapan. Meski munculnya konsep ini sudah cukup lama namun menjadi sangat relevan ketika Rolf Jensen dari Jerman menyatakan bahwa era informasi akan bergeser menjadi peradaban mimpi. Abad dream society yang mana pada peradaban mimpi ini story baca narasi lebih penting dibanding produk Kasali 2022. Dalam video tersebut Kasali 2022 menggunakan Fenomena Mbak Rara si Pawang Hujan sebagai contoh yang menunjukkan bahwa apa yang terjadi jasa mencegah hujan tidak penting tetapi story atau informasi tentang apa yang dilakukan Mbak Rara itulah yang penting Kasali 2022.
