H. Schmidt, H. D. Seibel, P.

Thomes, 2016-09-19 Once praised as a panacea to overcome poverty microfinance has had to face harsh criticism because of

painful failures and unfulfilled expectations Still many people in particular in rural regions do not have any access to formal financial services many microfinance institutions are weak and others rather exploit their clients driving them into over indebtedness than helping them out of poverty What should microfinance achieve Can it help to build up inclusive financial systems allowing access to basic financial services for everybody The historic templates for this book are the German Sparkassen and Cooperative banks that have a strong track record of development and growth spanning over 200 years For obvious reasons their results cannot be transferred directly into specific solution options to today s challenges in developing countries Nevertheless the coming into existence of Sparkassen and Cooperative banks can well be seen as part of a period of revolutionary developments in the European economic and social landscape which can be viewed as analogous to the transformation that emerging economies are undergoing today While Europe faced dramatically changing living conditions during the period of industrialization these newly created banks made change possible by unequivocally including the lower class population in the transformation by providing access to savings and loans And it is this is parallel even in the face of the many differences which is why their development and success deserves careful consideration today The authors approach differs from other explorations by specifically adopting an interdisciplinary strategy They take into account past developments as well as current global ones from a historical social science and economic point of view Analysis and the interpretation of data is supported by case studies to illustrate their considerations The authors identify general parameters both for failure and for success and also indicate how to optimize existing potentials both for institutions and policy makers As a result of this interdisciplinary work the authors advance an inclusive stylised facts based model The will to build up institutions to adhere to corporate social responsibility and creating conducive legal frameworks form the basic conditions for success More specifically the guiding principles of these successful business models are a fair savings and credit policy the promotion of capital transfers without reference to class and gender a focus on business activities in a well defined region decentralized organizational structures combined with national networks which avoid regional capital drains and the securing of economies of scale and scope Last but not least is the centrality of objectives beyond that of the sheer maximisation of profits

50 Years of Central Banking in Kenya Patrick Njoroge, Victor Murinde, 2021 This book documents important milestones in the epic journey traversed by the Central Bank of Kenya over the last 50 years putting

into perspective the evolution of central banking globally and within the East African region and contemplating future prospects and challenges The book is timely mainly because the global financial landscape has shifted Central bankers have expanded their mandates beyond the singular focus on inflation and consider economic growth as their other important objective Financial crises have continued to disrupt the functioning of financial institutions and markets the most devastating episodes being the global financial crisis which broke out in 2008 and from which the global financial system has not fully recovered and the unprecedented challenges posed by the global coronavirus pandemic Bank regulation has moved from Basel I to Basel II and somehow migrated to Basel III although some countries are still at the cross roads The book originated from the wide ranging discussions on central banking from a symposium to celebrate the 50 year anniversary on 13 September 2016 in Nairobi The participants at the symposium included current and former central bank governors from Kenya and the Eastern Africa region high level officials from multilateral financial institutions policy makers bank executives civil society actors researchers and students The book is an invaluable resource for policy makers practitioners and researchers on how monetary policy and financial practices in vogue today in Kenya have evolved through time and worked very well but also about some pitfalls **Marketing Financial Services** Jillian Farquhar, Arthur Meidan, 2017-09-16

Marketing Financial Services recognises that the major function of the financial services marketer is decision making It focuses on the major types of decisions and problems facing marketing executives Strategies to win and retain B2B and B2C customers are discussed in the context of many financial services sectors including banks insurance companies investment trusts and stock exchanges This second edition has been thoroughly updated to reflect changes in the industry and the availability of new technologies The text has been made more accessible and includes gripping case studies to demonstrate the realities of financial services marketing in an unstable and competitive environment Key features Logical structure and improved pedagogy including new vignettes and detailed case studies An experienced and established author team gives expert advice International coverage shows you the big picture Companion Website offering PowerPoint slides revision questions and answers to case study exercises and long case studies with notes and exercises Management, Society, and the Informal Economy Paul Godfrey, 2015-07-03 Informal economic activity defined as exchanges made by individuals and organizations in extra legal or non bureaucratic contexts represents a significant and growing share of global economic activity The informal economy brings to mind images of street vendors in markets and bazaars throughout the developing world indeed informal economic activity ranges from 25 75% of economic activity depending on the country under study Informal activity also includes under the table or off the books business in the developed world such as informal labor arrangements in child care construction or home cleaning in the United States or Western Europe What many fail to realize however is the increasing presence of informal economic activity in the developed world s largest corporations and most innovative entrepreneurial ventures such as technology development work in Silicon Valley open source software agreements

or employment arrangements between technology stars and firms Management Society and the Informal Economy brings to light the role of the informal economy in the 21st century The book does more than illuminate however it also calls for increased focus on the informal economy by management scholars Each chapter contains a call to action as well as practical and methodological advice for scholarship on the topic Management Society and the Informal Economy contains a multifaceted set of arguments descriptions and illustrations designed to convince management scholars that they should attend to the informal economy and view it as a serious and rigorous context for theorizing empirical research and even practical advocacy The Routledge Companion to Financial Services Marketing Tina Harrison,Hooman Estelami,2014-12-05

Interest in Financial Services Marketing has grown hugely over the last few decades particularly since the financial crisis which scarred the industry and its relationship with customers It reflects the importance of the financial services industry to the economies of every nation and the realisation that the consumption and marketing of financial services differs from that of tangible goods and indeed many other intangible services This book is therefore a timely and much needed comprehensive compendium that reflects the development and maturation of the research domain and pulls together in a single volume the current state of thinking and debate The events associated with the financial crisis have highlighted that there is a need for banks and other financial institutions to understand how to rebuild trust and confidence improve relationships and derive value from the marketing process Edited by an international team of experts this book will provide the latest thinking on how to manage such challenges and will be vital reading for students and lecturers in financial services marketing policy makers and practitioners **SIMSARC 2018** Arti Chandani,Rajiv Divekar, Mita Mehta,2019-02-09 4Cs Communication Commerce Connectivity and Culture are the building blocks of an economy How well an economy will grow or perform will depend on how strong these four pillars are Communication leads to sharing of information among individuals It is important for any business to have the right kind of communication channel Commerce provides goods and services for the society and its people Connectivity provides the right infrastructure and system for those goods and services to reach the market Lastly culture helps to retain the indigenous value in those SIMSARC 2018 organised by Symbiosis Institute of Management Studies focussed on the aforementioned idea and invited eminent speakers from academia and industry all over the world to share their views on the importance of the 4Cs Communication Commerce Connectivity and Culture for businesses and society The conference had 4 sub themes viz Communication Commerce Connectivity and Culture which were the plenary sessions for the conference The highlight of the communication Role of AI Big Data and IoT in Business track was the papers which were from broad range of Internet of things IoT big data role of technology Artificial Intelligence among other aspects of communication The panel speakers gave insight as to how communication is important for business not only for across boundaries but within a country as well Another session was on Culture An indigenous way where speakers deliberated on the cultures prevailing in different organisations countries and societies From a we together attitude in some country to a me

first attitude in the other cultural similarities and dissimilarities across nations were discussed in this track The session witnessed some relevant questions from the audience on issues of language barriers and its effect on businesses Language and cultural barriers are something which are inevitable but one needs to be adoptive and should learn languages to mitigate these barriers Connectivity Backbone for development was another plenary discussion where increase in connectivity through various social media platforms such as Facebook Twitter WhatsApp was discussed and deliberated where the focus was whether human beings are still emotionally connected or not The critical role of technology was emphasized along with importance of human to human interaction No matter how much technology comes in play human connections will never die as this was concluded by speakers as Technolgoy may not be able to take away the emotional connect Another track Commerce Fuel for economy where the panellist spoke about growth price discrimination financial markets inequality etc Investor s education is one of the most important aspect to take the investors to level where they understand financial market and this will help in investment activity in the market Sustainability was another concern highlighted by the speakers and they pointed that policies should work towards attaining sustainability in the market and try to bridge the gap between skills and jobs available in the country Researchers from all over the country belonging to academic institutes and industry presented their research ideas on the 4C s These research works ranged from digital transformation IOT team dynamics and organisation culture to infrastructural issues e commerce banking and corporate governance the research works presented covered a plethora of policy issues where each one of them is the need of the hour The deliberations from renowned academicians who came from different parts of the world along with top industrialist bureaucrats entrepreneurs NGOs immensely contributed to the existing bodies of work They emphasized on the importance of right policies to promote communication connectivity facilitating commerce and preserving culture among societies Overall the conference witnessed a brainstorming session with scholars and experts and it surely did pave the way for future research
