Financial management report 2011 Great Britain: National Audit Office, 2011-11-25 Despite the fact that the Department for Environment Food and Rural Affairs has made improvements in its financial management the NAO cannot yet conclude that the Department is achieving value for money in its financial management activity This is because the spending watchdog expected faster progress in improving performance since it last reported in 2008 and a higher level of financial maturity given the resources spent and the focus on financial management The Department has undertaken a number of projects designed to strengthen its financial management These have had some positive results such as revised management

reporting and improved forecasting although the Department has not fully assessed all the benefits of these projects Despite increasing the number of permanent qualified finance staff and also offering financial skills training courses for non financial staff there are still weaknesses in financial capability Financial skills could also be better integrated across the Department The Department should also focus on improving its commercial skills such as contract management It should also develop a strategic model for engagement with its arm s length bodies to understand the risks that they face and opportunities open to them Since 2002 Defra has consistently underspent against its Parliamentary estimate The underspend in 2010 11 was 530 million 10 per cent The Department has however improved its management of expenditure against its departmental expenditure limit reducing its underspend in 2010 11 to 34 million one per cent of expenditure *Franchise Opportunities Handbook*, 1994 This is a directory of companies that grant franchises with detailed information for each listed franchise
