book Although there is nothing new under the sun it is always useful to reevaluate old ideas and principles and express them
in new and original ways There are many books on the Kabala but based on what I have seen and read there is room for a
comprehensive approach Many authors leave out fundamental princi ples altogether like the authors who don t even mention
the celestial bodies and the Zodiac On the other hand scholars of mythology generally do not even refer to astrology and the
Kabala and apparently do not recognise that the celestial bodies were the principle gods of the ancient pantheon My
approach has been to briefly discuss some of the fundamental elements of the old theologies and relate them to astrology and
the Kabala from a modern perspective Thus I have laid an essential foundation for the Kabala and astrology and placed them
the context of Greek and Roman mythology Since I have adopted a broad perspective the reader has a basis for pursuing

these subjects in a variety of ways I have not seen any other book that relates astrology and the Kabala to Greek and Roman mythology the Bible and then relates these to Mesopotamian and Egyptian mythology The ancient theologies have many fundamental elements in common and these form key parts of the foundation of astrology and the Kabala In addition I have given a concise discussion of the Four Alchemical Elements the Signs of the Zodiac and the Celestial Bodies and placed them in a Kabalistic framework To truly comprehend the Kabala and Astrology it must be remembered that it is one complete whole and it is broken down to make analysis practicable Therefore I have discussed Creation and the Ten Sephiroth the trinity in some of its forms as a sacred elements in Creation and in Man and Woman the Four Elements and the Zodiac Then from a mythological and theological perspective I have looked briefly at Mesopotamia and Egyptian As a counterweight to our cynical age I have looked at the Golden Age of Atlantis and the mythological heroes and heroines of the primordial past serve as exemplars and encourage us to strive to attain some of Occidental Civilization's highest ideals On the other hand Atlantis is a warning the misuse of knowledge and power leads to the destruction of civilization Further from a theological and mythical perspective the Sephiroth were divine instruments used in Creation On a more mundane level the Kabala and astrology are a means to know ourselves and obey the injunction Know Thyself that used to be inscribed on Apollo's temple at Delphi This book is based on the work of the ancients whose writing is superb The quotes in English from the ancients are the best part of the book and it is a pleasure to read
