Broadband Services in Wales Great Britain: Parliament: House of Commons: Welsh Affairs Committee, 2012-09-17 In the Committee s report on broadband services it considers that the UK and Welsh Governments must work together and use all means available to bring broadband services in Wales up to speed with the rest of the UK and eradicate broadband slow spots and notspots as a matter of urgency Both Governments should consider promoting mobile and satellite technologies particularly in remote areas of Wales in order to deliver this and not rely solely on rolling out fibre optic cabling The availability of broadband has been consistently lower in Wales than the rest of the UK and although that gap has narrowed in recent years latest figures show the gap is widening again The existence of notspots an slowspots has hindered existing businesses and deterred new businesses from choosing to locate to Wales to the cost of the local economy The Welsh Government s target is a commitment to provide all Welsh businesses with access to next generation broadband by the middle of 2016 The Committee also says that both Governments must ensure that the roll out of superfast broadband is not achieved at the expense of delivering a good broadband service for all The Committee recommends that Ofcom undertake a study to evaluate whether satellite broadband should be supported more vigorously in Wales the delayed Spectrum auction now planned for 2013 must ensure that 4G mobile services are available to at least 98% of people in Wales and Ofcom must continue its efforts to open up access to infrastructure in Wales BT s market power must be regulated effectively to ensure efficient operation of the market Practice Assignments for ECDL4 and CLAIT Clare Townend, 2004 These worksheets are suitable for anyone wanting more practice in MS Office skills MS Word Excel Access and PowerPoint in vocational or business environment *Marketing of Services* Dr. Atul S. The Most Important Things You!?! Need to Know Before You Start Living Life on Your Own John Gerger,2002 This book written for and to the author s children contains the information that he wanted to pass on to them before they started living their lives on their own He realized that there was plenty he failed to teach them while he was away from home on business This book is his attempt to put the information that he thought they would need into a form that they could read now and reference again later It contains information about the things that they would face for the first time such as planning and budgeting bank accounts and writing checks building and maintaining a good credit report apartments and leases and the responsibilities and costs involved in owning an automobile It contains information that he hoped would help his children minimize the mistakes that they were sure to make After he wrote it he realized that ANYONE who was about to start living life on their own could benefit from this information This book contains information about the most important things YOU LL need to know before you start living life on your own Value-Added Services in der Automobilbranche Ramon Thomas Kunke,2001-03-13 Inhaltsangabe Problemstellung Durch die Vielzahl der in der Automobilbranche t tigen Unternehmen ist in den letzten Jahren eine st ndig steigende Wettbewerbsintensit t zu verzeichnen Dies ist jedoch auch zu einem Gro teil auf die aus Kundensicht wahrgenommene Homogenit t der von den Unternehmen angebotenen Leistungen zur ckzuf hren Umfangreiche und regelm ig durchgef hrte Fahrzeugtests von Fach Motor und Verbraucherzeitschriften erm glichen dem Autok ufer fundierte Einsch tztungen zur technischen Qualit t und Leistung der Fahrzeuge und tragen so zur Vergleichbarkeit der Angebote bei Da sich Produktdifferenzierungsm glichkeiten der Automobilhersteller auf technische Innovationen beschr

nken wird es zunehmend schwieriger einen klaren Aufbau von Unique Selling oder Advertising Propositions zu gestalten. Den sich in Folge der Homogenität einstellenden Preiswettbewerb versuchen die Hersteller und Händler durch das Angebot zusätzlicher Dienstleistungen zu umgehen. Dies entspricht der gestiegenen Serviceorientierung seitens der Käufer. Die Heterogenisierung der angebotenen Primärleistung durch die Koppelung dieser mit einer serviceorientierten Sekundärleistung soll zu einer Profilierung und Differenzierung des Wettbewerbs beitragen und beim Käufer zu einer Präferenzentscheidung führen. Leistungsbedeuten denen eine derartige Funktion zukommen werden mit dem Begriff Value Added Services umschrieben. Auch die Audi AG versucht mittels dem oben beschriebenen Prozess bei Konsumenten eine Profilierungswirkung zu erzielen. Dazu ist das bestehende Serviceangebot kontinuierlich auf dessen Wirkung zu überprüfen und eine Erweiterung um neue profilierungsschaffende Services notwendig. Allerdings ist bezüglich dieser Neukonzeption von Services bei der Audi AG eine als intuitiv zu bezeichnende Vorgehensweise zu konstatieren. Es bedarf daher eines festgelegten Planungsprozesses mit dessen Hilfe die gezielte Entwicklung und Einführung neuer Serviceleistungen ermöglicht werden kann. Die vorliegende Arbeit verfolgt daher das Ziel einen solchen Planungsprozess zu entwerfen. Ein Schwerpunkt liegt dabei in der Entwicklung einer Generierungsmethodik für neue Serviceleistungen. In seiner Anwendung soll der Planungsprozess mögliche Value Added Services generieren. Mittels einer Kundenbefragung sollen Aufschlüsse erlangt werden, die in der Evaluierung und Implementierung neuer Services Verwendung finden.

Start with What Works Andy Bass, 2021-04-27 Start with What Works helps you to create new growth opportunities using the resources you already have at hand. It sounds obvious but frequently managers discount the value of their familiar resources and instead they look outside for something new. This can demotivate employees and be costly in terms of money and time. It's often a lot quicker, cheaper and safer to see your existing resources with fresh eyes. This book shows you how to recognise overlooked potential in existing resources and how to flip the right switches to activate that potential. Covering ten lessons you can use for a variety of situations, each will feature a case study and a new mindset to adopt. With practical tools and templates, each will trigger fruitful discussions and insights for your organisation. You'll learn how to apply them to the situations you face so that you can identify new opportunities and turn those opportunities into action.
