## **Destructive Emotions A Scientific Dialogue With The Dalai Lama Daniel Goleman:**

**Destructive Emotions** Daniel Goleman, 2004-03-30 Why do seemingly rational intelligent people commit acts of cruelty and violence What are the root causes of destructive behavior How can we control the emotions that drive these impulses Can we learn to live at peace with ourselves and others Imagine sitting with the Dalai Lama in his private meeting room with a small group of world class scientists and philosophers The talk is lively and fascinating as these leading minds grapple with age old questions of compelling contemporary urgency Daniel Goleman the internationally bestselling author of Emotional Intelligence provides the illuminating commentary and reports on the breakthrough research this historic gathering inspired Destructive Emotions Buddhist philosophy tells us that all personal unhappiness and interpersonal conflict lie in the three poisons craving anger and delusion It also provides antidotes of astonishing psychological sophistication which are now being confirmed by modern neuroscience With new high tech devices scientists can peer inside the brain centers that calm the inner storms of rage and fear They also can demonstrate that awareness training strategies such as meditation strengthen emotional stability and greatly enhance our positive moods The distinguished panel members report these recent findings and debate an exhilarating range of other topics What role do destructive emotions play in human evolution Are they hardwired in our bodies Are they universal or does culture determine how we feel How can we nurture the compassion that is also our birthright We learn how practices that reduce negativity have also been shown to bolster the immune system Here too is an enlightened proposal for a school based program of social and emotional learning that can help our children increase self awareness manage their anger and become more empathetic Throughout these provocative ideas are brought to life by the play of personalities by the Dalai Lama s probing questions and by his surprising sense of humor Although there are no easy answers the dialogues which are part of a series sponsored by the Mind and Life Institute chart an ultimately hopeful course They are sure to spark discussion among educators religious and political leaders parents and all people who seek peace for themselves and the world The Mind and Life Institute sponsors cross cultural dialogues that bring together the Dalai Lama and other Buddhist scholars with Western scientists and philosophers Mind and Life VIII on which this book is based took place in Dharamsala India in March 2000

**Destructive Emotions** Daniel Goleman, 2014-07-12 Can the worlds of science and philosophy work together to recognise our destructive emotions such as hatred craving and delusion Bringing together ancient Buddhist wisdom and recent breakthroughs in a variety of fields from neuroscience to child development Daniel Goleman s extraordinary book offers fresh insights into how we can recognise and transform our destructive emotions Out of a week long discussion between the Dalai Lama and small group of eminent psychologists neuroscientists and philosophers Goleman weaves together a compelling narrative account Where do these destructive emotions craving anger and delusion known in Buddhism as the three poisons come from And how can we transform them to prevent them from threatening humanity s collective safety and its future

WHO IS THE DEVIL YOU KNOW Is it your lying cheating ex husband Your sadistic high school gym teacher Your boss who loves to humiliate people in meetings The colleague who stole your idea and passed it off as her own In the pages of *The Sociopath Next Door* you will realize that your ex was not just misunderstood He's a sociopath And your boss teacher and colleague They may be sociopaths too We are accustomed to think of sociopaths as violent criminals but in *The Sociopath Next Door* Harvard psychologist Martha Stout reveals that a shocking 4 percent of ordinary people 1 in 25 has an often undetected mental disorder the chief symptom of which is that that person possesses no conscience He or she has no ability whatsoever to feel shame guilt or remorse One in 25 everyday people therefore is secretly a sociopath They could be your colleague your neighbour even family And they can do literally anything at all and feel absolutely no guilt How do we recognize the remorseless One of their chief characteristics is a kind of glow or charisma that makes sociopaths more charming or interesting than the other people around them They're more spontaneous more intense more complex or even sexier than everyone else making them tricky to identify and leaving us easily seduced Fundamentally sociopaths are different because they cannot love Sociopaths learn early on to show sham emotion but underneath they are indifferent to others suffering They live to dominate and thrill to win The fact is we all almost certainly know at least one or more sociopaths already Part of the urgency in reading *The Sociopath Next Door* is the moment when we suddenly recognize that someone we know someone we worked for or were involved with or voted for is a sociopath But what do we do with that knowledge To arm us against the sociopath Dr Stout teaches us to question authority suspect flattery and beware the pity play Above all she writes when a sociopath is beckoning do not join the game It is the ruthless versus the rest of us and The
