**Cookbook For Reversing Diabetes** Emilie Vans, 2022-02-10 Do you struggle with diabetes Have you tried to diet but have found it difficult to stick to your healthy eating plan If you do then this is the cookbook for you Diabetes is a disease in which the body does not produce enough insulin or does not use the insulin it produces effectively Insulin is a hormone that helps the body use glucose for energy When you have diabetes your blood sugar remains elevated for too long after a meal This condition usually results in fatigue poor circulation and vision problems There are two types of diabetes type 1 and type 2 The differences between the two are in how they are diagnosed and managed Type 1 diabetes is an autoimmune disease triggered by an attack on the pancreatic beta cells of the pancreas In type 2 diabetes the body's inability to use insulin effectively occurs because of increased resistance to insulin or because the beta cells that produce insulin slowly die off There are several possible complications of diabetes including nerve damage kidney problems and heart disease It's important to understand what diabetes is and how it affects your body so you can better manage it Diabetes has no cure but there is help available The American Diabetes Association says that proper diet and exercise can slow the progression of diabetic eye disease control high blood sugar levels in children with diabetes and delay or prevent amputations as well as complications such as heart disease and nerve and kidney disease A diabetic diet should include plenty of fiber which will keep your digestion regular Fiber also absorbs water in your body and helps remove wastes from your system It is important that a diabetic diet includes cold cuts frozen yogurt fruit and nuts as these are low sugar foods These foods help control your blood sugar levels This Book Covers Breakfast Diabetic Recipes Lunch Diabetic Recipes Side Dishes Meat Diabetic Recipes Savory Diabetic Recipes Dessert Diabetic Recipes Special Diabetic Recipes It's important that you get enough protein in your diet so don't skip the meat Also include lean poultry fish beans and legumes These protein foods help you maintain a good appetite and keep you full for longer periods of time When choosing the kind of food to eat it's important that you don't skip breakfast or lunch because this can lead to overeating later in the day Try to schedule your

meals throughout the day rather than eating them all at once      The Type 2 Diabetes Cookbook Julia Spencer, 2021-06-17
