The New Woman's Film Hilary Radner, 2017-01-20 With the chick flick arguably in decline film scholars may well ask what has become of the woman's film Little attention has been paid to the proliferation of

films often from the independent sector that do not sit comfortably in either the category of popular culture or that of high art films that are perhaps the corollary of the middle brow novel or smart chick flicks This book seeks to fill this void by focusing on the steady stream of films about and for women that emerge out of independent American and European cinema and that are designed to address an international female audience The new woman s film as a genre includes narratives with strong ties to the woman s film of classical Hollywood while constituting a new distinctive cycle of female centered films that in many ways continue the project of second wave feminism albeit in a modified form Topics addressed include The Bridges of Madison County Clint Eastwood 1995 the feature length films of Nicole Holofcener 1996 2013 the film roles of Tilda Swinton Rachel Getting Married Jonathan Demme 2008 Blue Jasmine Woody Allen 2013 Frances Ha Noah Baumbach 2012 Belle Amma Asante 2013 Fifty Shades of Grey Sam Taylor Johnson 2015 and Jane Campion s Top of the Lake Sundance Channel 2013

Scottish Highlands, 1945: Claire Randall, a former British combat nurse, is just back from the war and reunited with her husband on a second honeymoon when she walks through a standing stone in one of the ancient circles that dot the British Isles. Suddenly she is a Sassenach—an outlander in a Scotland torn by war and raiding clans in the year of Our Lord 1743. Claire is catapulted into the intrigues of a world that threatens her life and may shatter her heart. Marooned amid danger, passion, and violence, Claire learns her only chance of safety lies in Jamie Fraser, a gallant young Scots warrior. What begins in compulsion becomes urgent need, and Claire finds herself torn between two very different men in two irreconcilable lives. **Outlander** Diana Gabaldon, 1991-06. Claire Randall is leading a double life. She has a husband in one century and a lover in another. In 1945, Claire Randall, a former combat nurse, is back from the war and reunited with her husband on a second honeymoon when she innocently touches a boulder in one of the ancient stone circles that dot the British Isles. Suddenly she is a Sassenach—an outlander in a Scotland torn by war and raiding border clans in the year of our Lord 1743. Hurlled back in time by forces she cannot understand, Claire's destiny is soon inextricably intertwined with Clan MacKenzie and the forbidden Castle Leoch. She is catapulted without warning into the intrigues of lairds and spies that may threaten her life and shatter her heart. For here James Fraser, a gallant young Scots warrior, shows her a passion so fierce and a love so absolute that Claire becomes a woman torn between fidelity and desire and between two vastly different men in two irreconcilable lives. **NOOK HD: The Missing Manual** Preston Gralla, 2013-02-11.
