The Political Theory of Che Guevara Renzo Llorente, 2018-02-09. Nearly half a century after his death, Ernesto Che Guevara remains a compelling and controversial figure. He was an original social theorist, and many of his writings attest to an innovative interpretation of various concepts and commitments central to Marxist thought. This is one of the first works to comprehensively consider his contribution to social and political theory for a student audience. Firstly, the book provides thorough and reliable accounts of the key theses, concepts, and commitments that give Che Guevara's theoretical and political orientation its distinctive character. It addresses Guevara's views on topics such as work morality in socialism, egalitarianism, prefigurative politics, internationalism, and the process of disembargeoisement. Secondly, the study situates Guevara's ideas within the context of the Marxist theoretical tradition and, on the other hand, twentieth-century Latin American social thought. To this end, it will explore both the affinities and dissimilarities between Guevara's views on certain fundamental questions and the views represented by such figures as Marx, Lenin, Herbert Marcuse, and José Carlos Mariátegui. Finally, *The Political Thought of Che Guevara* will provide critical assessments of Che's key ideas, many of which remain relevant to contemporary debates in socialist theory.

A Biographical Dictionary of People in Engineering Carl W. Hall, 2008. Advancements in the field of engineering that have led to major inventions and discoveries are built on the foundations of predecessors and their work. In many cases, small steps are taken by a variety of researchers, leading ultimately to a very momentous discovery. *A Biographical Dictionary of People in Engineering Literature* lists the work and contributions of thousands of people from many countries representing numerous fields of endeavor over many centuries. The ancient cultures of people in China, Arabia, India, and Japan; the Renaissance culture of the Greeks, Egyptians, Romans; and in addition, the European cultures of the Russians, Germans, French, and others, all have contributed to what is now called engineering. The terms engineer and engineering are rather recent, but former builders, architects, instrument makers, inventors, discoverers, and shop workers were part of the process. This work contains the necrologies, names, dates, and a brief biography up to the year 2000 of people who are found in engineering and invention literature. The names were culled from histories, biographies, literature, and handbooks, particularly from those reference titles including words such as distinguished, honored, leaders, outstanding, pioneers, prominent, recognized, renowned, and respected. The necrologies are necessarily abbreviated, with the major employers and dates of employment and specialties listed, and references to the

sources of information This book is a must for reference collections and those in the media who cover the field of engineering advancement

We're Not Going to Take it Anymore Gerald G. Jackson, 2005 Professor Gerald G Jackson incorporates the perceptions ideals hesitations and proclamations of the Hip Hop and post Hip Hop generations into the Africana Studies field He pulls evidence from a rich tapestry of history classroom learning exercises student reports scholar and professional led lectures discussions and educational tours to create a groundbreaking multicultural and pluralistic model for the application of Africentric helping to the educational sphere While the mode varies the greater number of compositions compiled here are biographies of ordinary and extraordinary African Americans Culturally affirming introspective and expansive *We're Not Going to Take it Anymore* is a rarely seen educational innovation □□□□□□□□□□, 2005 1400 *Hidden Fields* Charles Ford, 2009-02 In *Hidden Fields* choices are further examined with respect to various themes Charles Ford introduces another concept about choices there are internal choices and external ones Now in the general sense choices are seen as external state of affairs and are associated with our bodies such as an individual act or behavior so one sees the manifested action The internal choices stem from our various selves choices that are made by our souls and spirits and our feeling and reasoning respectively The individual has to think or feel before he/she acts Charles believes ultimately both internal and external choices need to be in harmony with each other so better choices can be seen in an individual life Charles continues to write and strives for excellence in all his poems He invites the readers into his presence to share and exchange of thoughts and views about life experiences All readers can be at home with him from simple to complex truths and philosophies about life Charles wants the readers to discover something about their selves as they read his poems for as human beings we are more similar than difference in our choices It does not matter what race culture or sex differences we have We are still human being for we all think sleep and dream And can truly make better choices Charles hopes all readers can clearly see this in his poems
