Teaching Latin: Contexts, Theories, Practices Steven Hunt, 2022-03-10 Building on and updating some of the issues addressed in *Starting to Teach Latin* Steven

Hunt provides a guide for novice and more experienced teachers of Latin in schools and colleges who work with adapted and original Latin prose texts from beginners to advanced levels. It draws extensively on up to date theories of second language development and on multiple examples of the practices of real teachers and students. Hunt starts with a detailed look at deductive inductive and active teaching methods which support teachers in making the best choices for their students' needs and for their own personal preferences but goes on to organise the book around the principles of listening reading speaking and writing Latin. It is designed to be informative experimental and occasionally provocative. The book closes with two chapters of particular contemporary interest: Access Diversity and Inclusion investigates how the subject community is meeting the challenge of teaching Latin more equitably in today's schools and The Future offers some thoughts on lessons that have been learnt from the experiences of online teaching practices during the Covid 19 lockdowns. Practical examples extensive references and a companion website at www.stevenhuntclassics.com are included. Teachers of Latin will find this book an invaluable tool inside and outside of the classroom. *Canadian Books in Print. Author and Title Index*, 1975

Reading the Wife/Sister Narratives in Genesis Hwagu Kang, 2018-10-31. The book of Genesis introduces three similar wife sister narratives commonly thought to be originating from different sources because of their repetitive entries. This research explores the wife sister narratives in Genesis Gen 12 10 13 1 20 1 18 and 26 1 11 and it aims to provide an understanding of the three stories as a whole by uncovering its context by textlinguistic and literary type scene analysis. Textlinguistic analysis helps us to see how each wife sister narrative functions in its context while type scene analysis emphasizes how the three narratives develop and contribute to the patriarchal narratives through their similarities and variations. Although the traditional type scene analysis studies recurrent fixed motives in texts this study focuses much more on literary aspects such as characterization theme and plot. Through this study the three wife sister stories will elaborate that the patriarchal narratives are not results of different authors but the well developed products of a single author. The three wife sister stories work together to highlight God's faithfulness to his promises Gen 12 1 3. **New Perspectives on Technical Editing** Avon Murphy, Charles Sides, 2017-03-02.
