the basis of race which raises an important question in a society that outlaws racial discrimination in employment housing and jury selections should voters be permitted to racially discriminate in selecting a candidate for public office In Whitelash Terry Smith argues that such racialized decision making is unlawful and that remedies exist to deter this reactionary behavior Using evidence of race based voting in the 2016 presidential election Smith deploys legal analogies to demonstrate how courts can decipher when groups of voters have been impermissibly influenced by race and impose appropriate remedies This groundbreaking work should be read by anyone interested in how the legal system can re direct American democracy away from the ongoing electoral scourge that many feared 2016 portended

of wealth and property reduced upward mobility demographic stagnation and increased dogmatism If the last seventy years saw a massive expansion of the middle class not only in America but in much of the developed world today that class is declining and a new more hierarchical society is emerging The new class structure resembles that of Medieval times At the apex of the new order are two classes a reborn clerical elite the clerisy which dominates the upper part of the professional ranks universities media and culture and a new aristocracy led by tech oligarchs with unprecedented wealth and growing control of information These two classes correspond to the old French First and Second Estates Below these two classes lies what was once called the Third Estate This includes the yeomanry which is made up largely of small businesspeople minor property owners skilled workers and private sector oriented professionals Ascendant for much of modern history this class is in decline while those below them the new Serfs grow in numbers a vast expanding property less population The trends are mounting but we can still reverse them if people understand what is actually occurring and have the capability to oppose them
