

DISOCONT® Tersus Measurement, Control and Supervisory System

- **Modular design**
- **Product line for Mechatronic scales; a combination of mechanical, electrical and software components**
- **Local or remote installation**
- **Reduced engineering planning and wiring costs**
- **Commissioning and diagnostics are graphically supported**
- **Optional wireless access for service**

Application

DISOCONT Tersus is a modular system for controlling continuous weighing and feeding applications. The controller is used whenever bulk solids need to be measured, fed or batched with the use of:

- Loss-in-weight feeders (measuring/feeding)
- Weighfeeders
- Mass flowmeters
- Solids flowmeters
- Belt scales
- Weighing hoppers

The DISOCONT Tersus is easily integrated into the automation structures of a plant using the built-in Ethernet interface or optional fieldbus modules.

Equipment

The DISOCONT Tersus electronics consist of a main VCU and multiple optional expansion VCUs. Because of its modular design approach, a cost-effective system configuration is achievable.

- Central unit VCU for all measurement and control functions with interface to operator panels and expansion VCUs
- EasyServe-PC-program for commissioning and service
- Fieldbus communication modules plug into the VCU for transfer of all relevant data to the user's control system
- Additional expansion VCU is for discrete I/O and provides expanded control of the scale system

- Operator panel with graphical display and touchscreen for operation of the scale and/or parameter modifications
- Integrated web server for browser server access to logs, HTML and service information
- Local control station for manual operation of motors to assist with setup and maintenance
- Compatible with DISOCONT Master Group Controller, see data sheet for further details
- Optional access via LAN, WLAN and Bluetooth

The internal DISOCONT Tersus communication bus permits a flexible arrangement of the VCUs, locally or in cabinets. All modules can be replaced with no need for recalibration and reconfiguration.

Disocont Vse 201
