

The background of the book cover is a photograph of railroad tracks. The tracks are dark and run from the bottom center towards the horizon. They curve slightly to the left and then back to the center. The landscape on either side of the tracks is a mix of green and yellow fields, suggesting a rural or agricultural setting. In the distance, there are some buildings and trees. The sky is a gradient of purple and pink, indicating a sunset or sunrise.

The Modernization of the Western World John McGrath, Kathleen Callanan Martin, 2017-11-06 The Modernization of the Western World presents an overview of the history of Western civilization and provides readers with the intellectual tools they need to comprehend how societies function and change. Covering Western history from ancient history to the current era of globalization it draws on the tradition of historical sociology to describe the forces of social change and what they have meant to the lives of the people caught in the midst of them. This second edition is revised throughout to bring the content up to date with recent developments and discusses key themes such as terrorism, refugees, the European Union, and multinational corporations. It also includes a new chapter on the Ancient World covering this era from the advent of urbanization and agriculture in the Middle East to the fall of Rome and emergence of Christianity, providing valuable historical context. Clear and concise, this book succinctly illustrates the essential turning points in the history of Western society and identifies the economic, social, political, and cultural forces that are transforming the wider world to this day. Illustrated with maps and images and containing a glossary and new boxed features explaining key concepts, this is the perfect introductory book for students of the development of Western civilization.

Winning Votes by Abusing Reason Jamie Carlin Watson, 2016-12-14 Over the past few decades, psychologists have discovered that human reasoning is defective in surprising ways. We are beset by numerous biases and heuristics which lead us to reason poorly about things that matter to us. And while there are illuminating evolutionary explanations for how these biases and heuristics may have benefited our species, in its phylogeny, psychologists are unanimous that these cognitive dispositions largely corrupt rather than aid our belief-forming practices. In *Winning Votes by Abusing Reason: Political Rhetoric and Responsible Belief*, Jamie Watson argues that political rhetoric rather than helping us overcome these defects exacerbates them. And standard attempts to address this problem, such as deliberative democracy and paternalism, tend to either exclude citizens from important decisions or give them the illusion of reasoning well, perpetuating poor and irresponsible political beliefs. This book concludes that rather than attempting more political solutions, the most promising approach to forming and preserving responsible political beliefs is to adopt individual principles of epistemic caution. The author brings together insights from political philosophy, social epistemology, behavioral psychology, and agnotology to suggest how we might protect our belief-forming behavior from the corrosive effects of political rhetoric. Recommended for scholars of philosophy, rhetoric, political science, and communications.

Radical Friendship Ryan Andrew Newson, 2017-04-01 In a society that is increasingly marked by apathy division and moral incompetence how might Christians set about working with others in such a way as to begin to address those challenges that seem to overwhelm our capacity to respond In Radical Friendship Ryan Newson argues that the often neglected practice of communal discernment provides a path to faithful political engagement that is worthy of reconsideration especially given its ability to create authentic friendships both within and beyond the church Such friendships Newson maintains are capable of fostering a type of competence in people who engage the practice that can counteract those social political forces that are antithetical to competence s formation Uniquely Newson explores the contours of communal discernment as a practice that is especially relevant to Christians seeking radical democratic alternatives to political liberalism Communal discernment is shown to be capable of generating conscientious participation in grassroots politics additionally this practice enables Christians to enjoy reciprocal discerning relationships with people of differing convictional communities Indeed communal discernment turns out to be capable of preparing Christians to recognize and celebrate analogues to the practice in the world at large **Love and Politics** Jeffery L. Nicholas, 2021-06-07 In Love and Politics Jeffery L Nicholas argues that Eros is the final rejection of an alienated life in which humans are prevented from developing their human powers Eros in contrast is an overflowing of acting into new realities and new beauties a world in which human beings extend their powers and senses Nicholas uniquely interprets Alasdair MacIntyre s Revolutionary Aristotelianism as a response to alienation defined as the divorce of fact from value However this account cannot address alienation in the form of the oppression of women or people of color Importantly it fails to acknowledge the domination of nature that blackens the heart of alienated life Alienation must be seen as a separation of the human from nature Nicholas turns to Aristotle first to uncover the way his philosophy embodies a divorce of human from nature then to reconstruct the essential elements of Aristotle s metaphysics to defend a philosophical anthropology based on Eros Love and Politics Persistent Human Desires as a Foundation for Liberation presents a critical theory that synthesizes MacIntyre s Revolutionary Aristotelianism Frankfurt School Critical Theory and Social Reproduction Theory It will be of great interest to political theorists and philosophers **The Moral Life** Louis P. Pojman, Lewis Vaughn, 2007 Featuring new selections

chosen by coeditor Lewis Vaughn the third edition of Louis P. Pojman's *The Moral Life: An Introductory Reader in Ethics and Literature* brings together an extensive and varied collection of ninety-one classical and contemporary readings on ethical theory and practice. Integrating literature with philosophy in an innovative way, the book uses literary works to enliven and make concrete the ethical theory or applied issues addressed in each chapter. Literary works by Camus, Hawthorne, Hugo, Huxley, Ibsen, Le Guin, Melville, Orwell, Styron, Tolstoy, and many others lead students into such philosophical concepts and issues as relativism, utilitarianism, virtue ethics, the meaning of life, freedom and autonomy, sex, love, and marriage, animal rights, and terrorism. Once introduced, these topics are developed further through readings by philosophers including Plato, Aristotle, Kant, Nozick, Singer, and Sartre. This unique anthology emphasizes the personal dimension of ethics, which is often ignored or minimized in ethics texts. It also incorporates chapter introductions, study questions, suggestions for further reading, and biographical sketches of the writers. The third edition brings the collection up to date, adding selections by Jane English, William Frankena, Don Marquis, John Stuart Mill, Mary Midgley, Thomas Nagel, Judith Jarvis Thomson, and J. O. Urmson. It also features a new chapter on euthanasia with essays by Dan W. Brock, J. Gay Williams, and James Rachels. Ideal for introductory ethics courses, *The Moral Life*, Third Edition, also provides an engaging gateway into personal and social ethics for general readers.

Ethics Lost in Modernity Matthew Vest, 2023-07-21 *Ethics Lost in Modernity: Reflections on Wittgenstein and Bioethics* turns to the philosopher Ludwig Wittgenstein as a guide to understand the immense success yet great danger of bioethics. Matthew Vest traces the story of bioethics since its inception in the late 1960s as a way to uncover a number of hidden assumptions within modern ethics that relies upon scientific theorizing as the fundamental way of thinking. Autonomy and utilitarianism, in particular, are two nearly unquestioned goals of scientific theorizing that are easily accessible but at what cost? Vest argues that such an ethics enacts a thin moral calculation that runs the risk of enslaving ethics to scientism. Far from the depth of religious ethos and practices of virtue, modern ethics is lost amidst thin ethical theories enacting a language game that instrumentalizes ethics in service of technological, bureaucratic, and professional ends. He proposes that true moral living is far from anti-science but rather is envisioned best when ethics and science are balanced with keen insights from ancient sacred cosmology.

Proceedings and Addresses of the American Philosophical Association American Philosophical Association, 2003. List of members in v. 1. *Pursuing Excellence for the Glory of God* Keith A. Curry, 2022-01-13. What is education? How and why do educators do what we do? And in what way can and ought education be distinctively Christian? These are a few of the probing questions for which this book seeks answers. Among other contributions, Curry's book explores a biblical philosophy of Christian education with unprecedented breadth and depth. To accomplish this objective, it considers what education is (chapter 1), what philosophy of education is (chapter 2), and what the ultimate goal of education is (chapter 3). Additionally, this book provides a never-before-Christian overview of twelve philosophies of education (chapters 4-15). Each of those chapters provides an introduction of a

particular philosophy of education and some of that philosophy's exemplars. Each of those chapters also contributes a constructive Christian critique. Chapter 16 highlights a biblical philosophy of Christian education featuring some people, some principles, and some priorities for a biblical philosophy of Christian education viz pursuing excellence for the glory of God.
