Cowan,2019-02-26 Magic Monsters and Make Believe Heroes looks at fantasy film television and participative culture as evidence of our ongoing need for a mythic vision for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story Why do we tell and retell the same stories over and over when we know they can t possibly be true Contrary to popular belief it s not because pop culture has run out of good ideas Rather it is precisely because these stories are so fantastic some resonating so deeply that we elevate them to the status of religion Illuminating everything from Buffy the Vampire Slayer to Dungeons and Dragons and from Drunken Master to Mad Max Douglas E Cowan offers a modern manifesto for why and how mythology remains a vital force today

[The Digital Social](#) Alpha Possamai-Inesedy,Alan Nixon,2019-12-02 The edited volume aims to present a critical analysis of the current state of research on religion and belief systems in the realm of the Digital Social The rapid expansion and democratization of digital technologies in conjunction with the significant shifts taking place within the practices of religion and belief through digital technology demand a critical examination across the social sciences and humanities These changes call for an overview of not only our current methodological tool box but also the epistemological and ethical considerations that researchers must contend with The proposed volume provides a critical framework that recognizes that the social and therefore the religious cannot be fully understood without recognizing how the digital world actively constitutes notions such as identity social networks embodiment and social institutions While some specific methods will be discussed the volume s emphasis remains on the critical epistemological and logistical considerations that are needed

when undertaking this form of research Women and Video Game Modding Bridget Whelan, Matthew Wilhelm Kapell, 2020-02-07 The world of video games has long revolved around a subset of its player base straight white males aged 18-25. Highly gendered marketing in the late 1990s and early 2000s widened the gap between this perceived base and the actual diverse group who buy video games. Despite reports from the Entertainment Software Association that nearly half of gamers identify as female, many developers continue to produce content reflecting this imaginary audience. Many female gamers are in turn modifying the games. Modders alter the appearance of characters, rewrite scenes and epilogues, enhance or add love scenes and create fairy tale happy endings. This is a collection of new essays on the phenomenon of women and modding, focusing on such titles as Skyrim, Dragon Age, Mass Effect and The Sims. Topics include the relationship between modders and developers, the history of modding and the relationship between modding and disability, race, sexuality and gender identity.

**Wissen in der Fantastik** Meike Uhrig, Vera Cuntz-Leng, Luzie Kollinger, 2017-06-19 Der Band widmet sich aus interdisziplinärer Perspektive den vielfältigen Funktion und Bedeutung von Wissen in der Fantastik. Ob geheim spezifisch oder allgemein lassen sich zentrale Motive des Wissens und der Wissensinhalte bestimmen. Worin bestehen Formen und Strukturen des Wissens, nach welchen Regeln wird es definiert, organisiert und kommuniziert? Welchen Stellenwert schließlich hat Wissen als Kapital, als Machtgrundlage, als Konfliktursache?

*The Digital Role-Playing Game and Technical Communication* Daniel Reardon, David Wright, 2021-04-22 With annual gross sales surpassing 100 billion U.S. dollars each of the last two years, the digital games industry may one day challenge theatrical release movies as the highest-grossing entertainment media in the world. In their examination of the tremendous cultural influence of digital games, Daniel Reardon and David Wright analyze three companies that have shaped the industry: Bethesda, located in Rockville, Maryland, USA; BioWare, in Edmonton, Alberta, Canada; and CD Projekt Red, in Warsaw, Poland. Each company has used social media and technical content in the games to promote players' belief that players control the companies' game narratives. The result has been at times explosive, as empowered players often attempted to co-opt the creative processes of games through discussion board, forum demands, fund-raising campaigns to persuade companies to change or add game content, and modifications/modding of the games through fan-created downloads. The result has changed
