Drug Guideline For Health Center In Ethiopia:

Guidelines for establishing a poison centre, 2021-01-14 **Access to Health and Education Services in Ethiopia** Fra Von Massow, 2001 This report analyses the findings of an extensive research project conducted by Oxfam in Ethiopia in the context rising external debt communities both rural and urban were interviewed about their problems in gaining access to basic health care reproductive health services and primary education **Pharmaceutical Prices in the 21st Century** Zaheer-Ud-Din Babar, 2014-12-05 This book provides an overview of the global pharmaceutical pricing policies Medicines use is increasing globally with the increase in resistant microbes emergence of new treatments and because of awareness among consumers This has resulted in increased drug expenditures globally As the pharmaceutical market is expanding a variety of pharmaceutical pricing strategies and policies have been employed by drug companies state organizations and pharmaceutical pricing authorities *DAC Guidelines and Reference Series Poverty and Health* OECD, World Health Organization, 2003-04-08 This book on poverty and health jointly published by the OECD and WHO sets out the essential components of a broad scope pro poor health approach for action within the health system and beyond it It is for development practitioners in the area of health issues **Guidelines for the Screening Care and Treatment of Persons with Chronic Hepatitis C Infection Updated Version April 2016** World Health Organization, 2016-04-30 The field of HCV therapeutics continues to evolve rapidly and since the World Health Organization WHO issued its first Guidelines for the screening care and treatment of persons with hepatitis C infection in 2014 several new medicines have been approved by at least one stringent regulatory authority These medicines called direct acting antivirals DAAs are transforming the treatment of HCV enabling regimens that can be administered orally are of shorter duration as short as eight weeks result in cure rates higher than 90% and are associated with fewer serious adverse events than the previous interfere on containing regimens WHO is updating its hepatitis C treatment guidelines to provide recommendations for the use of these new medicines The objectives of these WHO guidelines are to provide updated evidence based recommendations for the treatment of persons with hepatitis C infection using where possible all DAA only combinations The guidelines also provide recommendations on the preferred regimens based on a patient's HCV genotype and clinical history and assess the appropriateness of continued use of certain medicines This document also includes existing recommendations on screening for HCV infection and care of persons infected with HCV that were first issued in 2014 The key audience for these guidelines are policy makers in low and middle income countries who formulate country specific treatment guidelines and who plan infectious disease treatment programmes and services in addition to those people responsible for delivering treatment The guidelines are appropriate for all countries including high income countries **WHO guidelines for clinical management of arboviral diseases** World Health Organization, 2025-07-03 The purpose of this guideline is to assist health care providers caring for patients with suspected or confirmed arboviral disease caused by dengue chikungunya Zika or yellow fever viruses This guideline includes

recommendations on the management of patients admitted to health care facilities defined for the purpose of this guidance as severe disease and those seen in outpatient facilities defined for the purpose of this guidance as non severe disease The guideline can be applied at all levels of the health system including community based care primary care emergency departments and hospital wards The guideline will also serve as a reference source for policymakers health managers and health facility administrators to support the development of national regional and local guidelines for epidemic and pandemic preparedness Knowledge gaps are highlighted as priority areas for future research

Strengthening the protection of sexual and reproductive health and rights in the African region through human rights Eunice Brookman-Amissah, Tinyade Kachika, Simangele Mavundla, Jaime Todd-Gher, Christina Zampas, Onyema Afulukwe-Eruchalu, Karen Stefiszyn, Rebecca Amollo, Lisa Forman, Godfrey Kangaude, Tiffany Banda, Ayodele Atsenewa, Susana Sácouto, Fana Hagos Berhane, 2015-11-03

Strengthening the protection of sexual and reproductive health and rights in the African region through human rights uses rights based frameworks to address some of the serious sexual and reproductive health challenges that the African region is currently facing More importantly the book provides insightful human rights approaches on how these challenges can be overcome The book is the first of its kind It is an important addition to the resources available to researchers academics policymakers civil society organisations human rights defenders learners and other persons interested in the subject of sexual and reproductive health and rights as they apply to the African region Human rights issues addressed by the book include access to safe abortion and emergency obstetric care HIV AIDS adolescent sexual health and rights early marriage and gender based sexual violence

Guidelines for the prevention of bloodstream infections and other infections associated with the use of intravascular catheters. Part I World Health Organization, 2024-05-08 In the context of the prevention of infections associated with IV catheters these guidelines Part 1 provide guidance on best practices for the prevention of BSIs and other infections associated with peripherally inserted IV catheters while a subsequent WHO guideline Part 2 to be developed in 2024 will cover centrally inserted intravascular catheters In particular Part 1 of the Guidelines outlines an evidence informed approach to the management namely insertion maintenance access and removal of peripherally inserted intravascular catheters including PIVCs PICCs and PACs in three patient populations adults adolescents children and neonates during the provision of health care in any health care settings including acute and long term health care facilities and primary care settings The intended audience for these guidelines is clinicians that is doctors nurses IPC professionals etc involved in the management of patients who require intravascular catheters However to ensure an appropriate practical clinical adherence to the guidelines hospital administrators and other professionals involved in health care need to understand their importance and the focus of the recommendations to ensure appropriate support for clinicians Patients are also part of the audience of these guidelines as they need to be generally informed about practices performed for their care and in some cases understand the choice of the intervention s

Joint external evaluation of the International Health

Regulations (2005) core capacities of Ethiopia World Health Organization,2025-08-20 The primary goal of the Joint External Evaluation JEE in Ethiopia was to assess capacities in 19 technical areas to comply with the International Health Regulations 2005 IHR The exercise was held from 18 22 September 2023 in Bishoftu The evaluation showed areas for improvement but importantly areas that provided a strong foundation for the work of health security preparedness including application of the whole of government approach in IHR implementation due to strong political will presence and availability of several legal instruments policies and guidelines for IHR implementation significant partner support towards a strong health security preparedness structure in the country existence of a very strong multisectoral coordination mechanism for public health response the presence of a very robust One Health platform at both national and regional level strong robust IHR technical leadership and stewardship There is recognized capacity to implement IHR in all assessed 19 technical areas to achieve the required minimum core capacities There is a need for continuous training of key cadres across the relevant sections and sectors and this will go a long way to strengthen the existing mechanisms and capacities of Ethiopia to respond to public health events and major public health risks
