on an intelligent and big picture view of data analytics that addresses the strategic business challenges that businesses face Finally it explores the way in which datafication is changing the nature of the relationship between brands and consumers and why this calls for new forms of analytics to support rapidly emerging new business models After reading this book any brand should be in a position to make a step change in the value they derive from their data assets [Zen-Brain Horizons](#)

James H. Austin,2014-08-22 A neurologist and Zen practitioner clarifies the benefits of meditative training drawing on classical Buddhist literature and modern brain research In Zen Brain Horizons James Austin draws on his decades of experience as a neurologist and Zen practitioner to clarify the benefits of meditative training Austin integrates classical Buddhist literature with modern brain research exploring the horizons of a living neural Zen When viewed in the light of today the timeless wisdom of some Zen masters seems almost to have anticipated recent research in the neurosciences The keen attentiveness and awareness that we cultivate during meditative practices becomes the leading edge of our subsequent mental processing Austin explains how our covert involuntary functions can make crucial contributions to the subtle ways we learn intuit and engage in creative activities He demonstrates why living Zen means much more than sitting quietly indoors on a cushion and provides simplified advice that helps guide readers to the most important points *Searching for Oedipus*

Kenneth Glazer,2018-09-15 Aristotle considered it to be the model on which all other tragedies should be based Freud viewed it as the key to unlocking the subconscious Countless others have agreed with D H Lawrence s assessment that it is the finest drama of all time It is Oedipus Rex one of the most celebrated and disputed works in all of Western literature For centuries classicists psychologists philosophers and many others have tried to solve the Riddle of Oedipus the age old puzzle of what Sophocles s masterpiece means and why it is so singularly mesmerizing In Searching for Oedipus Kenneth Glazer offers a fresh and personal way of looking at Oedipus Rex by recounting what Oedipus Rex has meant to him at different points in his life and how gradually over many years he came to answer this ancient riddle for himself Along the way Searching for Oedipus shows just how deeply Oedipus Rex is embedded in our cultural DNA and how strongly its influence continues to be felt Both a valuable resource for scholars and a riveting accessible analysis for the general reader Searching for Oedipus brings to life a work of art that even after 2 500 years still retains the power to shock and inspire **The**

Director and The Manager David S. Fushtey,2019-02-01 Machiavelli Had it Easy is an engaging text for the emerging discipline of governance Gaps arise when directors and managers come together from diverse vocational and cultural languages and interests Compressed information streams in the digital age yet few reconcile silos of business legal expertise and regulatory public interests for informed decisions This text presents research and a market tested decision framework for comparative law market practice and human nature in the vital strategic oversight role of governance Informed by cognitive science business practice and legal duties one conclusion is that bias and self interests are instinctive but reconciling best interests is not Too often lessons learned from centuries of law are overlooked The chapters are a dozen

inquiries into recurring problems in the boardroom Part one is an entry level technical reference of law and governance principles Unique appendices of keywords and case notes will aid those new to markets governed by the western rule of law and those tripping on gaps in comparative jargon Part two is a series of practical hot topics in the context of law and governance part three looks to next steps in accountability and liability The text will help accountants engineers lawyers and business operations and market policy experts from around the world work together and professors professionals and students anticipate change After drilling through accountability and liability for hybrid organizations typical crises are revealed to be from a lack of aligning interests and related information churn Conclusions of the how and why of governance systems link the human condition and the rule of law in the digital age
