Weiss, 2013-03 This volume explores in a novel and challenging way the emerging norm of the Responsibility to Protect R2P initially adopted by the United Nations World Summit in 2005 following significant debate throughout the preceding decade This work seeks to uncover whether this norm and its founding values have resonance and grounding within diverse cultures and within the experiences of societies that have directly been torn apart by mass atrocity crimes The contributors to this collection analyze the responsibility to protect through multiple disciplines philosophy
