for a society where the ruling principle is the full and free development of every individual Capitalism neither is nor can be such a society Domination worsening ecological crises and many other pathologies are its intrinsic features not bugs that can be corrected But is there truly a better way to organize society And if we can imagine one can we be confident it could be put into practice The answer to both questions is an emphatic Yes This book makes the case It describes in detail a workable model of republican socialism a vision of socialism worth fighting for **The Eyes of the World** James H. Smith, 2021-12-17

The Eyes of the World focuses on the lives and experiences of Eastern Congolese people involved in extracting and transporting the minerals needed for digital devices The digital devices that many would argue define this era exist not only because of Silicon Valley innovations but also because of a burgeoning trade in dense artisanally mined substances like tantalum tin and tungsten In the tentatively postwar Eastern DR Congo where many lives have been reoriented around artisanal mining these minerals are socially dense fueling movement and innovative collaborations that encompass diverse actors geographies temporalities and dimensions Focusing on the miners and traders of some of these digital minerals The Eyes of the World examines how Eastern Congolese understand the work in which they are engaged the forces pitted against them and the complicated process through which substances in the earth and forest are converted into commodified resources Smith shows how violent dispossession has fueled a bottom up social theory that valorizes movement and collaboration one that directly confronts both private mining companies and the tracking initiatives implemented by international companies aspiring to ensure that the minerals in digital devices are purified of blood **A History of**

Hegelianism in Golden Age Denmark, Tome III Jon Stewart, 2025-03-28 This is the third volume of a three volume work dedicated to exploring the influence of G W F Hegel s philosophical thinking in Golden Age Denmark The work demonstrates that the largely overlooked tradition of Danish Hegelianism played a profound and indeed constitutive role in many spheres of the Golden Age culture This third tome covers the most exciting and dynamic time in the Danish Hegel reception from

1842 to 1855 This heterogeneous period saw the emergence of several new figures many of whom were associated with the left Hegelian school This period is best known for the publication of the pseudonymous works of S ren Kierkegaard The present tome places these famous works in the context of other contemporary Danish discussions about Hegel s philosophy It shows that many of Kierkegaard s criticisms had been raised by other Danish thinkers before him and that a large part of his polemical campaign was aimed at the leading figures of the previous periods of the Danish Hegel reception namely Johan Ludvig Heiberg and Hans Martensen

understanding of and between Asian countries These essays show how the teaching of world history in Asian countries has developed since World War II with many interesting parallels including the issue of Eurocentrism but also distinctive national trends and considerable changes over time At a time when many Asian countries are making great strides in education this study of history education in Asia will be of real interest to educators history scholars and policy makers worldwide

Classical Literature and Learning in Medieval Irish Narrative Ralph O'Connor, 2014 This edited volume will make a major contribution to our appreciation of the importance of classical literature and learning in medieval Ireland and particularly to our understanding of its role in shaping the content structure and transmission of medieval Irish narrative Dr Kevin Murray Department of Early and Medieval Irish University College Cork From the tenth century onwards Irish scholars adapted Latin epics and legendary histories into the Irish language including the Imtheachta Aeniasa the earliest known adaptation of Virgil's Aeneid into any European vernacular Togail Troia a grand epic reworking of the decidedly prosaic history of the fall of Troy attributed to Dares Phrygius and at the other extreme the remarkable Merugud Uilixis meic Leirtis a fable like retelling of Ulysses's homecoming boiled down to a few hundred lines of lapidary prose Both the Latin originals and their Irish adaptations had a profound impact on the ways in which Irish authors wrote narratives about their own legendary past notably the great saga T in B C ailnge The Cattle Raid of Cooley The essays in this book explore the ways in which these Latin texts and techniques were used They are unified by a conviction that classical learning and literature were central to the culture of medieval Irish storytelling but precisely how this relationship played out is a matter of ongoing debate As a result they engage in dialogue with each other using methods drawn from a wide range of disciplines philology classical studies comparative literature translation studies and folkloristics Ralph O'Connor is Professor in the Literature and Culture of Britain Ireland and Iceland at the University of Aberdeen Contributors Abigail Burnyeat Michael Clarke Robert Crampton Helen Fulton Barbara Hillers Maire N Mhaonaigh Ralph O'Connor Erich Poppe

Understanding Contexts Of Business In Western Asia: Land Of Bazaars And High-tech Booms Leo-paul Dana, Aidin Salamzadeh, Veland Ramadani, Ramo Palalic, 2022-05-05 Not one size fits all Yet some books teach business with minimal focus on the context for business In reality firms large and small are highly affected by the context in which they operate yet context is not uniformly conceptualized theorized and operationalized by scholars of business and management While most theories have come from developed countries with bountiful contexts the diverse contexts of Western Asia are little understood Religious factors are profoundly dominant in Western Asia and businesses in this diverse area operate with considerations that are rarely considered in research This book reveals a variety of schools of thought that have molded several business models and mechanisms which are to some extent different from the context of Western economies
