Neurofunctional Prudence and Morality Marcus Arvan,2020-01-29 Philosophers across many traditions have long theorized about the relationship between prudence and morality Few clear answers have emerged however in large part because of the inherently speculative nature of traditional philosophical methods This book aims to forge a bold new path forward outlining a theory of prudence and morality that unifies a wide variety of findings in neuroscience with philosophically sophisticated normative theorizing The author summarizes the emerging behavioral neuroscience of prudence and morality showing how human moral and prudential cognition and motivation are known to involve over a dozen brain regions and capacities He then outlines a detailed philosophical theory of prudence and morality based on neuroscience and lived human experience The result demonstrates how this theory coheres with and explains the behavioral neuroscience showing how each brain region and capacity interact to give rise to prudential and moral behavior *Neurofunctional Prudence and Morality A Philosophical Theory* will be of interest to philosophers and psychologists working in moral psychology neuroethics and decision theory Chapter 3 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license **The Tragedy of**

Gensler,2011 *Rightness as Fairness* Marcus Arvan,2016-03-29 *Rightness as Fairness* provides a uniquely fruitful method of principled fair negotiation for resolving applied moral and political issues that requires merging principled debate with real world negotiation Kant's Deontological Eudaemonism Jeanine Grenberg,2022 Grenberg defends the idea that Kant s virtue theory is best understood

Moral Reasoning in a Pluralistic World Patricia Marino, 2015-09-01 Moral diversity is a fundamental reality of today's world but moral theorists have difficulty responding to it Some take it as evidence for skepticism the view that there are no moral truths Others associating moral reasoning with the search for overarching principles and unifying values see it as the result of error In the former case moral reasoning is useless since values express individual preferences in the latter our reasoning process is dramatically at odds with our lived experience *Moral Reasoning in a Pluralistic World* takes a different approach proposing an alternative way of thinking about moral reasoning and progress by showing how diversity and disagreement are compatible with theorizing and justification Patricia Marino demonstrates that instead of being evidence for skepticism and error moral disagreements often arise because we value things pluralistically This means that although people share multiple values such as fairness honesty loyalty and benevolence we interpret and prioritize those values in various ways Given this pluralistic evaluation process preferences for unified single principle theories are not justified Focusing on finding moral compromises prioritizing conflicting values and judging consistently from one case to another Marino elaborates her ideas in terms of real life dilemmas arguing that the moral complexity and conflict we so often encounter can be part of fruitful and logical moral reflection Aiming to draw new connections and bridge the gap between theoretical ethics and applied ethics *Moral*

Anderson,Martha Nussbaum,2018-04-23 Torture has lately become front page news featured in popular movies and TV shows and a topic of intense public debate It grips our imagination in part because torturing someone seems to be an unthinkable breach of humanity theirs and ours And yet when confronted with horrendous events in war or the prospect of catastrophic damage to one s own country many come to wonder whether we can really afford to abstain entirely from torture Before trying to tackle this dilemma though we need to see torture as a multifaceted problem with a long history and numerous ethical and legal aspects Confronting Torture offers a multidisciplinary investigation of this wrenching topic Editors Scott A Anderson and Martha C Nussbaum bring together a diversity of scholars to grapple with many of torture s complexities including How should we understand the impetus to use torture Why does torture stand out as a particularly heinous means of war fighting Are there any sound justifications for the use of torture How does torture affect the societies that employ it And how can we develop ethical or political bulwarks to prevent its use The essays here resist the temptation to oversimplify torture drawing together work from scholars in psychology history sociology law and philosophy deepening and broadening our grasp of the subject Now more than ever torture is something we must think about this important book offers a diversity of timely constructive responses on this resurgent and controversial subject *New Directions in Peacebuilding Evaluation* Tamra Pearson d'Estrée,2019-11-11 In this landmark collection the voices of pathmakers and innovators in peacebuilding evaluation are assembled to provide new direction for the field Stock is taken of the development and challenges of engaging in the real time learning that evaluation requires Best practices for overcoming challenges are discussed and critiqued as well as some of the basic assumptions guiding the field New means of gathering information and understanding conflict processes are offered and examined To continue to evolve and strengthen peacebuilding practices and professionalism multiple calls are issued for collaborative learning and a field wide effort at community inquiry
